

Licensing Sub-Committee

Minutes

Friday 25 January 2013

PRESENT

Committee members: Councillors Matt Thorley (Chairman), Michael Cartwright and Tom Crofts

Premises/Applicant:

Item 4

Stephen Kidd, area manager, Reuben Van Der Sluys, manager and Designated Premises Supervisor, Mike Gore, representative of the Premises Licence Holder

Item 5

Everton Lee, applicant and Robert Mulholland, applicant

Item 6

Bob Messham, agent for applicant, and Bekim Tahiri, applicant

Responsible Authorities

PC Michael Payne, Metropolitan Police (Item 4), Dom Stagg, Environmental Protection, Catherine Thornton and Carolyn Goddard, Planning Enforcement (Item 6)

Officers: Adesuwa Omoregie (Items 5 and 6) and Alex Russell (Item 4), Legal Advisor, Lisa White (Items 5 and 6) and Adrian Overton (Item 4), Licensing Officer, and Owen Rees, Committee Coordinator.

1. MINUTES

RESOLVED THAT:

The minutes of the meeting held on 28 and 30 November and 11 and 13 December 2012 be confirmed and signed as an accurate record of the proceedings.

2. APOLOGIES FOR ABSENCE

There were none.

3. DECLARATIONS OF INTEREST

There were no declarations of interest.

4. **LARRIK INN, 425 NEW KING'S ROAD, LONDON, SW6 4RN (APPLICATION NUMBER:2012/02036/LAPRR)**

The Sub-Committee received and considered an application for a review of the licence at the Larrik Inn, 425 New King's Road, London, SW6 4RN.

Main Points Of Evidence

Licensing Officer

Lisa White, Licensing Officer, said that the premises had agreed the alterations to conditions requested by the Police and by the Environmental Protection service.

Police Constable Michael Payne, Borough Licensing Team, said that he had agreed one amendment to the conditions applied for. This was in relation to condition 10, with the condition amended to state that a personal licence holder should be "on duty", and that this condition should only come into effect after 3 months.

Councillor Cartwright asked what the definition of "on duty" was. PC Payne said that it meant that a personal licence holder was working at the premises during the time it was open, but could be away for a short time: fifteen minutes was given as an example. Mike Gore, representing the Premises Licence Holder, said that the current position was that only the DPS held a personal licence, though two other staff members were undergoing training and had applied. He said that the premises understood "on duty" to mean working at the premises on the day in question, not on call in case of emergency. However, given the time it could take for a licence to be awarded, the premises had requested a period of grace before bringing this requirement into action.

Dom Stagg, Environmental Protection, said that there was one slight amendment agreed to the conditions proposed in the agenda pack. He said that he had agreed to add "after 21:00 hours or during regulated entertainment" to the condition, reflecting that the premises may want the door open during quiet periods on hot days.

The Chairman and Councillor Crofts asked about football matches and whether these would be shown in the garden. Mr Stagg said that there were no complaints about football at the premises and that the conditions proposed were largely pragmatic. Reuben Van Der Sluys, Manager and DPS, said that the outdoor television speakers did not have their own speaker system.

The Chairman said that, in light of the agreement between the parties, the Sub-Committee did not intend to retire.

RESOLVED THAT

The application for review be agreed, with 6 conditions removed, and the conditions proposed by the Police and Environmental Protection, subject to the amendments discussed, imposed.

Full reasons for decision are contained in the decision letter which accompanies these minutes.

5. NOMAD CAFÉ, 2B THORPEBANK ROAD, LONDON, W12 0PQ (APPLICATION NUMBER: 2012/01701/LAPR)

The Sub-Committee received and considered an application for a new premises licence at Nomad Café, 2B Thorpebank Road, London, W12 0PQ.

Main Points Of Evidence

Licensing Officer

Adrian Overton, Licensing Officer, introduced the application. He said that the Police and Environmental Protection had made representations to the application, but that the applicant had accepted the conditions proposed by both parties. As a result, the Police and Environmental Protection had withdrawn their representations. Four other parties had objected to the application, with one of the parties now withdrawing their representation, though stating that the level of noise was still a concern..

The Chairman asked if the premises had previously held a licence. Mr Overton said that it had not.

The Chairman asked about the way in which the premises had been advertised. Mr Overton said that there were concerns regarding the advertising of the application and as a result, the 28 day consultation period was extended. He is satisfied that the amended site adverts were displayed correctly, during the extended consultation period.

The Chairman asked about the garden space. Mr Overton said that the space was at the front of the premises surrounded by a wall and adjacent to the pavement, and the café was entered through it.

The Chairman noted the premises' relative proximity to the Queens Park Rangers Football Stadium Loftus Road, and the lack of standard match day conditions in the operating schedule. Mr Overton said that no match day conditions had been suggested or agreed.

Councillor Cartwright said that the operating schedule seemed thin, and expressed concern that the premises might attract away football fans. He noted the requirement for alcohol to be served with food, but recalled that this had been the subject of abuse at other licensed premises

Robert Mulholland, applicant, said that the premises interpreted food as a main meal, with each customer expected to purchase one.

Dom Stagg, Environmental Protection, was asked whether the premises had any history of complaints. Mr Stagg said that none had been received, though the premises had been the subject of two previously refused planning applications. He

said that he was happy that the applicant has agreed to the proposed conditions and that the fact that some of the representations made in respect of the premises licence had not been withdrawn was not a significant concern to Environmental Health.

Applicant

Mr Mulholland, applicant, said that the premises planned to serve only wine and beer, and would insist that a main meal was purchased and consumed with any alcohol purchase on match days. He said that the premises intended to run as a local family café/restaurant, serving bistro style food: he said that current meals included meat and pasta main dishes priced from £5.50-£7.50. He said the premises would use the outside space as a seated area for people eating at the premises, which would be closed from 9pm and would only hold 12 people.

In response to a question from the Chairman, he said that plants would further dampen the noise, and reiterated that the building was the first on the street.

The Chairman asked Mr Mulholland about his experience of working in licensed premises. He said that he had worked as an assistant manager at a wine bar in Exeter and had managed Jackson's Wine Bar in Ealing for one year. During this time he had introduced firm policies on issues such as under age drinking, training of staff and customers leaving.

The Chairman asked what his involvement would be in the premises. He said that he would be at the premises 6 days a week (the premises are closed on Monday), as presently, and clear policies would be established.

Summing Up

No further points were made.

The Sub-Committee retired at 10.41am and returned at 10.52am

RESOLVED THAT

The panel unanimously agreed to grant the application in part; with all conditions proposed by Environmental Health and the Police to apply.

Full reasons for decision are contained in the decision letter which accompanies these minutes.

6. PUNTO, 112 ASKEW ROAD, LONDON, W12 9BL (APPLICATION NUMBER: 2012/01683/LAPR)

The Sub-Committee received and considered an application for a new premises licence for Punto, 112 Askew Road, London, W12 9BL.

Main Points Of Evidence

Licensing Officer

Adrian Overton, Licensing Officer, introduced the application. He said that the Police and Environmental Protection had made representations to the application during the consultation period. The applicant has accepted the conditions proposed by the Police and Environmental Protection. The Police has subsequently withdrawn their representation.

One local resident and the Planning Enforcement team also made representations..He confirmed that the premises were located in the Shepherds Bush Cumulative Impact Zone.

Councillor Cartwright asked whether the Sub-Committee could grant a licence to a premises which did not have planning permission to carry out the activities licensed. Adesuwa Omoregie, Legal Adviser to the Sub-Committee, said that the planning and licensing regimes were separate, and that it should rely upon the licensing considerations to determine the application

Responsible Authorities

Environmental Protection

Dom Stagg, Environmental Protection, said that even though the applicant had accepted the proposed conditions that his representation had not been withdrawn. He said that the premises had been refused planning permission on the advice of Environmental Protection, so he wished to remain a party to the hearing.

He also outlined the complaint history of the premises, which had been operating with the aid of Temporary Event Notices. He said that there had been a substantiated complaint on 20th/21st December, but that the music had been turned down at midnight. He understood this to have been a staff party.

Planning Enforcement

Catherine Thornton, Planning Enforcement Team leader, said that the applicant had made a planning application at the Planning Department's request, when the change of use came to light. The application was subsequently refused, due to the ventilation arrangements at the back of the building.

Ms Thornton said that the rear extension of the premises was in residential use, which meant ducting travelled up the building to the roofline. At present, the ducting passed too close to the windows of residential properties above, and the noise from its use would substantially affect the amenity of those properties. She said that the Planning department also have concerns about refuge storage.

She concluded that the premises was, as things stood, an unlawful development, She confirmed that the planning department would normally expect that applications for licensing matter are postponed until planning issues are resolved.

Applicant

Bob Messham, Licensing Consultant to the applicant, said that the licensing and planning regimes are two different regimes which should be kept separate, and that he, and Bekim Tahiri, who attended the hearing with him, were not involved in the planning application (which was being dealt with by the applicant's partner, Mr De Rossi)

With regards to the application before the Sub-Committee, Mr Messham said that all proposed conditions had been accepted, and that the Sub-Committee should deal with it in those terms. He said that Mr Tahiri ran an identical premises in Old Windsor, and was a responsible operator who worked closely with the Police and Environmental Protection. He said that the premises had agreed a trade waste contract with the Council, who had placed a bin in the outside area and therefore there was no issue with refuse storage. He said that the premises would be a credit to the area.

The Chairman asked what the premises had been before the change of use. Mr Messham said that the premises had been a flower shop.

The Chairman asked why the applicant was confident that they would avoid the problems common to the CIZ. Mr Messham said that the premises was on the border of the cumulative impact zone, was an Italian restaurant with no plans for music and dancing.

He confirmed that the intention was that background music would be provided. Recorded Music had been applied for, as this was preferred by some licensing authorities however the applicant would be happy to withdraw that element of the application if the licensing authority considered it unnecessary.

Councillor Cartwright asked what steps were being taken with regards to the planning application. Mr Tahiri said that the initial advice given by the Planning Authority had been short of detail, and the applicant was working to address their concerns by moving the ducting.

Summing Up

Mr Overton noted that the application for recorded music had been withdrawn.

Mr Stagg said that the Sub-Committee could consider imposing a condition tying the legal operation of plant to the grant of a licence and that the current extract system was likely to cause a nuisance. He said that it had been audible on his inspection of the premises.

Ms Thornton said that she withdrew her comments on refuse, given the information submitted by Mr Messham.

Mr Messham said only the licensing issues should be considered and that there had been no complaints about the premises or the operation of its equipment. He said that the conditions added to the application would ensure the premises would operate safely.

The Sub-Committee retired at 11.20am, returning at 11.33am

RESOLVED THAT

The Sub-Committee unanimously agree to refuse the application on the grounds of public protection and safety, public nuisance and the impact on the Cumulative Impact Zone

Full reasons for decision are contained in the decision letter which accompanies these minutes.
