Page 48	Para 3.1 Renumber paragraph 4.1 and add an additional sentence at the end: "The Planning (Listed Buildings and Conservation Areas) Act 1990 sets out the principal statutory duties which must be considered in the determination of any application affecting listed buildings or conservation areas. Sections 16 and 72 of the Act are relevant to consideration of this application."		
Page 50	Para 8.1 Add the following at the end: "The application site is located within Shepherds Bush Conservation Area. Since the designation of the Conservation Area, in October 1984; the eastern extent of the Conservation Area has been subject of significant change. This is owing to redevelopment of Shepherds Bush underground station as part of the Westfield development. This development included the demolition of a group of locally listed, Buildings of Merit. Owing to this earlier change, the current proposals; given both their scale and temporary nature, would not result in any harm to the character and appearance of the Conservation Area. Consequently, it is considered that this is compliant with Sections 16 and 72 of the Planning (Listed Buildings and Conservation Areas) Act 1990."
