erformance 22 planning	Assessment of progress against the metric plan for the reporting period	Challenges and any Support Needs
385.0	Data not available to assess progress	• Workforce shortages due to vacancies and sickness has presented a significant challenge in both the primary identification and treatment of chronic ambulatory care sensitive conditions
21 days or more (Q4) 5.6%	Not on track to meet target	Length of stay has been impacted by: • reduced ability to discharge to designated settings (due to closures of care homes, lack of social care capacity, specialist and community care capacity)
94.9%	On track to meet target	Achievement to Feb is slightly below target at 94.7% and has been impacted by: • periodic closures in care and residential settings due to covid outbreaks • Lack of consistency in admission and re-
576	On track to meet target	EOY out turn is 488.2 (101 people)
92.7%	On track to meet target	EOY out turn is 94.1% Oct-Dec 21

:onshire and West Northamptonshire), the denominator for the Residential Admissions r

;

Achievements	Checklist Complete:
• A programme of work is in place to improve discharge to improve the flow out of acute hospitals to support planned and unplanned recovery • Community teams have managed	Yes
• NW London ICS performs above average compared to other areas in London. • After challenges in January there have been some gradual improvements in Feb and March - with all Trust discharge teams	Yes
• Programme of work in place around discharge, led my local authority DASS as SRO • Better joint working between local authorities and NHS	Yes
The rate of permanent admissions in to residential care per 100,000 is likely to be in line with, or below the target; contributory factors incl: •herapy led intermediate support service	Yes
On track to exceed target , although it is anticipated that the % may drop as we embed the new intake, intermediate support service which will provide , assessment, therapy and nursing support for all new	Yes

metric is based on 2020-21 estimates
