

Appendix 3

In April 2015 we surveyed 100 roads in the Borough for 7 days. The table and chart below show the proportion of roads in each speed range.

Speed of 85%* of traffic (mph)	10-15	15-20	20-25	25-30	30-35	35+
% of roads	3%	9%	41%	37%	10%	0%

* 85% speed is the speed at or below 85% of all vehicles are observed to travel under free flowing condition. This is a nationally recognised method of assessing traffic speeds.
