In each of the cases above, the Councillors considered that they did not give rise to a perception of a conflict of interests and, in the circumstances it would be reasonable to participate in the discussions and vote on the motions.

5. PUBLIC QUESTIONS (20 MINUTES)

5.1 Question 1 - Loft Conversions in the Old Oak & Wormholt Conversation Area

Mr Al-Hairi was unable to attend so a response was sent to him in writing following the meeting. The original question and the response is copied below.

Public Question

Can loft conversions be permitted at the Old Oak & Wormholt Conversation area?

Response from the Cabinet Member for Environment, Transport and Residents’ Services – Councillor Wesley Harcourt

The roofscapes of the cottages on the Old Oak and Wormholt Estates are a key element of the garden suburb character of the Conservation Area and contribute greatly to its significance. The Council has a statutory duty to preserve or enhance the character and appearance of its Conservation Areas. The residential use of existing loft space as part of a single dwelling house does not require planning permission. However, planning permission may be required for external alterations to properties in the Old Oak and Wormholt Conservation Area such as roof extensions and rooflights. Any planning applications submitted in the Old Oak and Wormholt Conservation Area will be assessed on a site by site basis against the relevant planning policies and legislation including the Council’s Development Management Local Plan and Planning Guidance SPD.

The Council provides a pre-application advice service so that residents can seek planning advice from Officers in relation to their particular property and the specific design of their proposals.

This Council:

- Welcomes the fact that since May 2014, under a Labour administration, our precious community assets, council homes and Sure Start provision have been protected.

9.12pm – Councillor Alan De'Ath moved, seconded by Councillor Colin Aherne, the special motion in their names:

“This Council places on record its gratitude for the courage, service and sacrifice of members of Her Majesty’s armed forces, past and present, during military conflicts, in countering terrorism and in carrying out peacekeeping and humanitarian duties.

Council notes:

- The obligations it owes to the Armed Forces community within the Borough of Hammersmith & Fulham as enshrined in the Armed Forces Covenant; that the Armed Forces community should not face disadvantage in the provision of services and that special consideration is appropriate in some cases, especially for those who have given the most.
- The absence of definitive and comprehensive statistics on the size or demographics of the Armed Forces community in Hammersmith & Fulham. This includes serving Regular and Reserve personnel, veterans, and their families.
- That the availability of such data would greatly assist the Council, local partner agencies, the voluntary sector, and national Government in the planning and provision of services to address the unique needs of the Armed Forces community in Hammersmith & Fulham.

In light of the above, this council moves to support and promote The Royal British Legion’s call to include a new topic in the 2021 census that concerns military service and membership of the Armed Forces community. We further call upon the UK Parliament, which will approve the final census questionnaire through legislation in 2019, to ensure that the 2021 census includes questions concerning our Armed Forces community.

Council therefore resolves to:

- Support and promote The Royal British Legion’s campaign ‘Count Me In’ to include a new topic in the 2021 census that concerns military service and membership of the Armed Forces community.
- Urge Hammersmith & Fulham’s elected members to sign up as individual supporters to the ‘Count Me In’ campaign.
- Ask the Leader of the Council write to the Secretary of State for Defence, setting out the Council’s position that we wish to see the UK Parliament approve a final census questionnaire in 2019, which includes questions concerning our Armed Forces community, for use in the 2021 Census.”

Speeches on the special motion were made by Councillor Alan De’Ath and Ali Hashem (for the Administration) – and Councillors Alex Karmel and Frances Stainton (for the Opposition).

9.24pm – RESOLVED

This Council places on record its gratitude for the courage, service and sacrifice of members of Her Majesty's armed forces, past and present, during military conflicts, in countering terrorism and in carrying out peacekeeping and humanitarian duties.

Council notes:

7.4 Special Motion 4 - Uber

9.24pm – Councillor Steve Hamilton moved, seconded by Councillor Greg Smith, the special motion in their names:

"This Council notes:

1. The decision of Transport for London, with the support of the Mayor of London, not to renew Uber London Ltd's private hire operating licence.
2. The contribution of Uber to the London economy, creating some 40,000 jobs, mainly amongst disadvantaged and minority communities, including many hundreds in Hammersmith and Fulham.
3. That Uber provides choice for our residents.

This Council recognises:

1. The concern and distress a ban on Uber will have for residents of Hammersmith and Fulham who currently drive for Uber and/or use Uber as customers.
2. The importance of providing a level playing field across the private hire market.
3. That a ban on Uber will cause massive inconvenience to millions of Londoners including many of our residents here in Hammersmith and Fulham.

This Council:

1. Expresses its regret that the Mayor of London and the Labour Party are (once again) closed to business and innovation.
2. Calls on the Mayor and Transport for London to reconsider the ban on Uber, subject to addressing safety concerns."

Speeches on the special motion were made by Councillors Steve Hamilton and Greg Smith (for the Opposition).

Under Standing Order 15(e) 6, Councillor Larry Culhane moved, seconded by Councillor Iain Cassidy, an amendment to the special motion as follows:

"Delete everything after 'This Council' and insert:

- Welcomes the Labour administration's new borough Industrial Strategy and its determination to make Hammersmith & Fulham the best place for businesses and business growth in Europe.
- Welcomes the business strategy produced by the independent Business Commission which formed a critical part of the borough's Industrial Strategy
- Welcomes the work of the council's current leadership in introducing a new reach-out programme to local businesses, of all sizes, which involved meeting with them, hearing about the issues they face and thanks those businesses for their advice as the administration developed the borough's Industrial Strategy and its approach to supporting businesses.
- Supports the new measures being introduced by the Labour administration to help make it easier for entrepreneurs to start a business in H&F by creating affordable workplaces, exploring business rate cuts for key sectors and creating a new venture capital fund to support new businesses.

- Recognises the contribution that Uber has made to the economy within London, and recognises that many of our residents value its ease of use and speed of service. This is especially true for those travelling alone at night who may otherwise feel unsafe using public transport.
- Recognises that all businesses must act responsibly and must abide by all the relevant regulations governing the safety of their customers and the rights of their employees.
- Welcomes the news that Uber’s CEO has recently met with Transport for London to discuss TfL’s concerns about safety and corporate responsibility.
- Notes that the decision to not renew Uber’s license is subject to appeal, a process which is currently underway and means that Uber can continue to operate in the meantime.
- Hopes that Uber and TfL will work together to address these concerns so that Uber will continue operating responsibly with its focus firmly on passenger safety.
- Notes the rate of technological change means there will be many new businesses that develop innovative new services that benefit consumers - including in the taxi sector. The Council supports this and calls on government at all levels to work efficiently with those new businesses so they are quickly able to operate within the legislation and take their services to the marketplace.
- Notes that the Conservative government’s changes to business rates has caused that tax to rise by as much as 400% on some local businesses and that the way the tax is structured prohibits business growth. The Council recognises the government’s approach to hiking up business rates is damaging to many businesses and calls on the government to urgently review this mistaken policy.”

Speeches on the amendment to the special motion were made by Councillors Larry Culhane, Iain Cassidy, and Stephen Cowan (for the Administration) – and Councillor Jacqueline Borland (for the Opposition) who made her maiden speech.

The amendment to the special motion was then put to the vote:

3. This Council understands that this is a complex issue with many local residents and business wanting to have their voices heard and their concerns and opinions taken into account.
