

London Borough of Hammersmith & Fulham

Health & Wellbeing Board

Agenda

Tuesday 20 June 2017 6pm Courtyard Room - Hammersmith Town Hall

MEMBERSHIP

Vanessa Andreae - H&F Clinical Commissioning Group Clare Chamberlain – Executive Director of Children's Services

Councillor Ben Coleman - Cabinet Member for Health and Adult Social Care (Chair)

Janet Cree - H&F Clinical Commissioning Group

Councillor Sue Macmillan - Cabinet Member for Children and Education

Keith Mallinson - Healthwatch Representative

Sue Redmond - Executive Director of Adult Social Care

Mike Robinson - Shared Services Director of Public Health

Dr Tim Spicer - H&F Clinical Commissioning Group (Vice-Chair)

Ian Lawry – SOBUS (Co-Opted Member)

Nominated Deputy Members:

Councillor Rory Vaughan Councillor Sharon Holder

Steve Miley, Director for Family Services (nominated representative, Clare Chamberlain)

CONTACT OFFICER: Bathsheba Mall

Committee Co-ordinator Governance and Scrutiny

■: 020 8753 5758

E-mail: bathsheba.mall@lbhf.gov.uk

Reports on the open agenda are available on the <u>Council's website</u>: http://www.lbhf.gov.uk/Directory/Council and Democracy

Members of the public are welcome to attend. A loop system for hearing impairment is provided, along with disabled access to the building.

Date Issued: 12 June 2017

Health & Wellbeing Board Agenda

20 June 2017

<u>Item</u> <u>Pages</u>

1. MINUTES AND ACTIONS

1 - 8

- (a) To approve as an accurate record and the Chair to sign the minutes of the meeting of the Health & Wellbeing Board held on 20th March 2017.
- (b) To note the outstanding actions.

2. APOLOGIES FOR ABSENCE

3. DECLARATIONS OF INTEREST

If a Member of the Board, or any other member present in the meeting has a disclosable pecuniary interest in a particular item, whether or not it is entered in the Authority's register of interests, or any other significant interest which they consider should be declared in the public interest, they should declare the existence and, unless it is a sensitive interest as defined in the Member Code of Conduct, the nature of the interest at the commencement of the consideration of that item or as soon as it becomes apparent.

At meetings where members of the public are allowed to be in attendance and speak, any Member with a disclosable pecuniary interest or other significant interest may also make representations, give evidence or answer questions about the matter. The Member must then withdraw immediately from the meeting before the matter is discussed and any vote taken.

Where members of the public are not allowed to be in attendance and speak, then the Member with a disclosable pecuniary interest should withdraw from the meeting whilst the matter is under consideration. Members who have declared other significant interests should also withdraw from the meeting if they consider their continued participation in the matter would not be reasonable in the circumstances and may give rise to a perception of a conflict of interest.

Members are not obliged to withdraw from the meeting where a dispensation to that effect has been obtained from the Audit, Pensions and Standards Committee.

4. NORTH WEST LONDON WHOLE SYSTEMS INTEGRATED CARE 9 - 22 DASHBOARD

This report provides an introduction to the Whole Systems Integrated Care (WSIC) Dashboards Programme, implementation across North West London (NWL) and information on future plans and developments.

5. PROPOSAL TO ESTABLISH JOINT BCF HEALTH AND SOCIAL CARE TRANSFORMATION PROGRAMME

23 - 33

This paper sets out a proposed way forward, using the Better Care Fund Plan, the Joint Executive Team and a Joint Investment Fund as key levers for delivering change.

6. ANNUAL REPORT OF THE DIRECTOR OF PUBLIC HEALTH 2016-17

34 - 37

This report introduces the theme of wellbeing, and particularly mental wellbeing, for the annual report of the Director of Public Health for 2016-17. It provides an opportunity for the Health and Wellbeing Board to discuss and contribute to the development of the report.

7. JOINT HEALTH AND WELLBEING STRATEGY 2016-21: DEVELOPING OUR IMPLEMENTATION PLANS

38 - 70

This report updates on work to date developing a Delivery Plan for the Joint Health and Wellbeing Strategy 2016-21 (JHWS).

8. WORK PROGRAMME

71 - 73

The Board's proposed work programme for the municipal year is set out as Appendix 1 to this report.

The Board is requested to consider the items within the proposed work programme and suggest any amendments or additional topics to be included in the future.

9. DATE OF NEXT MEETING

The Board is asked to note that the date of the next meeting will be Wednesday, 13th September 2017.

London Borough of Hammersmith & Fulham

Health & Wellbeing Board Minutes

Monday 20 March 2017

PRESENT

Committee members:

Vanessa Andreae, H&F CCG Janet Cree, H&F CCG Councillor Sue Fennimore, Cabinet Member for Social Inclusion Stuart Lines, Deputy Director of Public Health Councillors Vivienne Lukey (Chair) Keith Mallinson, Healthwatch

Nominated Deputies Councillors:

Rory Vaughan

Officers: Chris Adams, Chief Executive Officer, H&F GP Federation, Robin Barton, Head of Commissioning, Children's Services CEO, H&F GP Federation, Rachael Wright-Turner, Director of Children's Commissioning, Daniel Wingfield, Chairman, H&F GP Federation, Harley Collins – Health and Wellbeing Manager and Bathsheba Mall, Committee Co-ordinator

92. MINUTES AND ACTIONS

The minutes of the meeting held on Monday, 8th February 2017 were agreed as a correct record.

93. APOLOGIES FOR ABSENCE

Apologies for absence were received from Councillors Sharon Holder and Sue MacMillan; Mike Robinson, Director of Public Health, Clare Chamberlain, Director for Children's Services, Steve Miley, Director for Family Services and Dr Tim Spicer, H&F CCG (Vice-chair). Apologies for lateness were noted from Councillor Sue Fennimore.

94. DECLARATIONS OF INTEREST

None.

95. PRIMARY CARE COMMISSIONING

Councillor Vivienne Lukey, Chair, welcomed Janet Cree, Managing Director of the Hammersmith and Fulham CCG, who provided an update on the vote

Minutes are subject to confirmation at the next meeting as a correct record of the proceedings and any amendments arising will be recorded in the minutes of that subsequent meeting.

to adopt delegated commissioning of primary care services. Briefly outlining the transition plan, benefits of the process and the duties imposed by the delegation, in particular, those that would remain within the remit of NHS England, and those that would pass to the CCG. With the NHS England expectation that all CCGs adopt level 3/delegated commissioning by April 2018, it was reported that following the voting process earlier this year, the H&F CCG membership in February, 70% voted in favour of the move to level 3. The change would require some constitutional adjustments but the overall aim was to secure greater autonomy in both leadership and practice. A range of objectives and benefits, set out in the report, included increased local freedom for investment in primary care, GPs having direct leadership to influence the development of investment in general practice, better delivery of and more holistic, integrated primary, community and commissioned care.

Section 5.2 of the report set out the key findings of RSM (auditors), which included the fact that NHS England would remain liable for any pre-April 2017 liabilities. Notably, it was reported that additional, ring-fenced funding would be provided for primary care investment. One of the benefits of the delegated powers was greater freedoms, such as working more closely with the GP federation, to ensure better outcomes for local residents through tailor made, local services.

With reference to section 4 of the report, Janet Cree provided the salient points of areas that would form the new duties that would now be covered by the CCG and NHS England, respectively. Section 5 of the report set out due diligence undertaken in the key areas of finance, governance and workforce. Key governance changes included new committee arrangements with a new Level 3 Primary Care Commissioning Committee affective from April 2017. The Board were asked to note the revised structure, together with the proposed composition.

Responding to a question from Co-optee, Keith Mallinson who referred to page 14 of the report, it was explained that patients would be given greater opportunities and input in shaping the delivery of services.

Councillor Rory Vaughan sought greater clarity on the division of roles with the NHS and the way in this would alter. Expanding the question further, Councillor Lukey observed that while the changes were a welcome development, that it was unclear how the potential conflict of interest of GPs commissioning primary care was being managed and sought further explanations about the monitoring and scrutiny arrangements by NHS England, noting that this would not be a total delegation. Janet Cree acknowledged that there existed potential areas where there would be conflicts of interest and anticipated that this would be addressed through the new governance and due diligence arrangements. She continued that this was an opportunity to bring patients closer to the decision making process. It was noted that the CCG were following recommended guidance, but expected to there to be issued new guidance by April 2017. A conflict of interest management policy was in place and would be updated, once the new guidance had been received.

Clarifying further, Janet Cree explained that they would ensure proper transparency in decision making and that any conflicts of interest will be managed, with input from local governing body members. The composition of the committee will also include lay-members, ensuring greater accountability. It was agreed that it would be helpful to provide a link from the LBHF website to the CCG site, so that information regarding dates of meetings and other CCG events would be more accessible.

Action: HWB

In a follow up question, Councillor Vaughan asked about the separation between national and community services and how this could be translated at a local level. Vanessa Andreae, H&F CCG, explained that she did not anticipate many change. They had worked closely with NHS England on initiatives such as the immunisation programme, and would continue to liaise with different parts of the organisation, as needed.

RESOLVED

That the transition progress from Level 2 primary care co-commissioning to Level 3 delegated commissioning from April 2017, and the emerging work on an H & F Primary Care Strategy, be noted.

96. HAMMERSMITH AND FULHAM GP FEDERATION UPDATE

Councillor Lukey welcomed Chris Adams, CEO, H & F GP Federation and David Wingfield, Chairman, H & F GP Federation. David Wingfield, provided an update on the work of the Federation, explaining the governance structure of the organisation and the key areas of work currently being undertaken such as out of hospital services. Support to general practices had been a key focus, with advice and guidance on a range of areas that included services such as anti-coagulation and diabetes. While this was currently small in number, it was expected to increase. It was also explained that a number smaller practices were merging, offering greater opportunities to reduce non-clinical costs, create flexible services and create opportunities to benefit from the sharing of clinical services and expertise.

Another key programme was on education and training of clinical staff. The Federation received grant funding from the Health Education North West London (HENWL). Practice based education hubs had also been established. The governance arrangements for the organisation was relatively simple, with the Clinical Governance Committee reporting to the Board of Directors, together with a steering group, consisting of a range of stakeholders and patient group representatives. One of the aims was to try and facilitate greater input from GPs, particularly in terms of delivering elements of the GP Five-year Forward View and ensuring greater accountability.

With reference to page 35 of the report, Keith Mallinson enquired whether training of receptionists would form part of the workforce education and

training programme, given that a significant number of complaints where about receptionists. Chris Adams responded that they had recently secured joint funding sources from the H&F CCG and Health Education England. The training would consist of basic customer services training, such as ensuring eye contact. There was a future expectation that the training would eventually focus on technical aspects such as telephony services and a final area would be about signposting clinical care pathways and care navigation.

Focusing on workforce training, Councillor Vaughan commented that this was currently a significant area of concern, in the context of the STP (Sustainability Transformation Plan), and would be included in the future work programme of the Council's Health, Adult Social Care and Social Inclusion Policy and Accountability Committee. Noting the need to recruit, upskill and retain staff, Councillor Vaughan asked if this could be achieved through the package of training currently in place and whether this offered clinical staff greater incentive to work in the Borough. Chris Adams acknowledged that staff retention was a concern and that this was addressed in part by ensuring that there was greater support for GPs. One solution was the establishment of Network Locums, a dedicated pool of approximately 60 locum GPs. This was relatively easy platform to use, the key advantage of which was local knowledge, which helped stabilise the resource, in addition to safeguarding continuity of care. David Wingfield added that they were actively trying to recruit local residents. He explained also that a small-scale career pathway had been established for health care assistants who wanted to progress their medical expertise through formal, nursing education.

In response to a query from Councillor Lukey enquiring about the link between the work of the Federation and Public Health, David Wingfield explained that the Federation anticipated that this would continue to develop and had recently met with the Director of Public Health, Mike Robinson. He explained that they had recently begun to undertake data modelling and that the knowledge and data analysis provided by Public Health, would be invaluable.

RESOLVED

That the Federation's structure and key programmes, as set out in the Executive Summary of the report, be noted.

97. PROPOSED ESTABLISHMENT OF A FAMILY SUPPORT SERVICE

Councillor Lukey welcomed Rachael Wright-Turner, Director of Children's Commissioning and Robin Barton, Head of Commissioning, who presented the report, that set out proposals for the establishment of an integrated Family Support Service (FSS). Historically, there had been many different formats used for the delivery of children's services and this new vehicle was expected to bring together and deliver a range of strategically planned services that focussed on children and young people. While acknowledging the current partnership working arrangements with health and adult social care services, they had identified a need for the closer alignment of multiple service provision.

Referring to the concept of accountable care, Rachael Wright-Turner explained that the FSS would bring together a range of services for children and young people, delivered by the Council or commissioned from providers. One of the keys aims was to strengthen provision, simplifying the existing system which was complex for both families and service providers. This presented an opportunity to design services differently, with the FSS being a vehicle for a new and evolving model.

Keith Mallinson welcomed the FSS report, observing that the existing provision was fragmented, particularly in terms of the support for young people transitioning from children's services to adult provision. With reference to page 39, he enquired about the Joint Venture Special Purpose Vehicle (SPV), and how the partners would be identified and recruited. Robin Barton acknowledged the difficulties inherent in the transitioning process and explained that a procurement process would be followed. A meeting had been held in February which 40 providers had attended.

Rachael Wright-Turner elaborated that there were two different aspects to transitioning. It was correct to identify pathways for young people moving to adult provision but it should be recognised that different professionals work with different groups. Service delivery was less based on the management of need and more based on existing work practices, so could be better configured. The FSS presented an opportunity to better plan and provide for people and that it would be helpful to stop thinking of it in terms of a "children's" service but more holistically, as a "family" service. This could also include additional adult social care services, as appropriate, with the main focus being people, rather than the different life stages experienced.

Mike Boyle, Director of Strategic Commissioning and Enterprise, Adult Social Care and Health, observed that the FSS presented an opportunity to overcome barriers and would be brought back to the Board for further discussion, as development of the proposal progressed. He explained that this would be an opportunity to explore the potential benefits of having all-age learning disability services, as opposed to the existing provision. One of the key questions was which parts of Adult Social Care provision would fit into the proposed model.

Action: HWB

RESOLVED

- 1. That the opportunity which the Family Support Programme offers to create an integrated health and wellbeing provider vehicle, which can deliver outcomes for both health and social care commissioning bodies, be endorsed.
- That the completion of opportunity assessments for the possible inclusion of the following local authority funded service areas within the FSS:

- Adult Social Care assessment and provider Services; and
- Local Authority funded emotional wellbeing support, be supported
- 3. That the completion of these opportunity assessments with appropriate resources and leadership, where relevant, be supported.
- 4. That, subject to the outcome of the opportunity assessments, the inclusion of these service areas within the FSS Joint Venture procurement, which will allow further exploration of the potential benefits of these services being integrated through the FSS, be noted, with the final inclusion within the FSS subject to appropriate governance decisions, be supported.

98. <u>DEMENTIA JOINT STRATEGIC NEEDS ASSESSMENT PROGRESS</u> REPORT

Mike Boyle, Director of Strategic Commissioning and Enterprise, Adult Social Care and Health provided a brief outline of the report, which set out 32 detailed recommendations in the Joint Strategic Needs Assessment (JNSA) on dementia, which also included five over-arching recommendations.

Janet Cree expressed support for the approach taken, which offered potential areas of synergy, opportunities for learning and cross-fertilisation which would require more detailed exploration and a structured conversation as to how health and social care programmes could interface, going forward.

Rachael Wright-Turner commended officers on the report, which was an excellent example of how a report should be written. Councillor Lukey endorsed this view, adding that Appendix 2 was particularly good.

Mike Boyle commented that one of the key changes and a significant issue was the access to long term care beds in the three boroughs, together with skilled staff who had appropriate expertise and opportunities to access training. He confirmed that a further report could be provided to the Board in due course.

Action: HWB

Janet Cree concurred with the view that this presented an opportunity to identify synergies emerging around the work with the Accountable Care Partnership (ACP).

Councillor Lukey concurred, observing that it was not viable to place the responsibility for care on those who were already active within the community supporting people with dementia. This demonstrated the clear commitment within the community and highlighted existing good practise in dealing with challenging behaviour.

Ketih Mallinson welcomed the report and enquired about how the information would be disseminated to the public on a wider scale. It was explained that

RESOLVED

- 1. That the progress of the Three Boroughs Joint Health and Social Care Dementia Programme Board, be noted;
- That monitoring of the progress of the implementation of the JSNA on dementia recommendations, holding to account the parties involved, be agreed; and
- 3. That the Board continue to support and to promote the partnership work between health and social care to improve the patient, service user and carer experience.

99. <u>DEVELOPING THE JOINT HEALTH AND WELLBEING STRATEGY</u> <u>DELIVERY AND IMPLEMENTATION PLAN: PROGRESS UPDATE AND NEXT STEPS</u>

Harley Collins briefly provided background details to the approach taken to develop the Joint Health and Wellbeing Strategy for 2016-21 (JHWS). Following wide-ranging consultation with stakeholders, and, in development with partner organisations represented on the Board, four key priority areas had been identified. Members of the Board had participated in a highly productive, development workshop on 24th January, led by Andrew Cozens, CBE and funded by the Local Government Association. Building on this foundation, the next stage was to develop the JHWS Delivery and Implementation plan.

Members of the Board briefly discussed the proposed timetable and dates, which were noted as imminent. It was noted that a date for the next workshop, to be held in April, was yet to be confirmed and it was agreed that the existing dates be re-circulated to ensure the availability of members.

Action: HWB

RESOLVED

- 1. That progress made developing the JHWS Delivery Plan to date be noted; and
- 2. That the timeline and proposed approach for the further development of the JHWS Delivery Plan, be noted.

100. WORK PROGRAMME 2017/18

Members of the Board briefly discussed proposed items for the municipal year 2017/18, noting that from the earlier discussions, that there would be additional items to include.

RESOLVED

That the draft Work Programme for 2017/18, be noted.

101. DATES OF NEXT MEETINGS

The Board noted the dates of meetings scheduled for the new municipal year 2017/18 and the next meeting of the Board, to be held on Tuesday, 20th June 2017.

NORTH WEST LONDON WHOLE SYSTEMS INTEGRATED CARE DASHBOARDS

Report of the Director

NWL CCG Director of Business Intelligence and Programme Director of the Whole Systems Integrate Care Dashboards Programme

Open Report

Classification - For Information

Key Decision: No

Wards Affected: All

Accountable Executive Director: Ian Riley, NWL CCG Director of Business

Intelligence

Report Author:

Amanda Lucas, Programme Director of the

WSIC Dashboards

Contact Details:

Tel: 0208 350 4071

E-mail:

Amanda.Lucas@nw.london.nhs.uk

1. EXECUTIVE SUMMARY

1.1 This report provides an introduction to the Whole Systems Integrated Care (WSIC) Dashboards Programme, implementation across North West London (NWL) and information on future plans and developments.

2. RECOMMENDATIONS

2.1 It is recommended that the Board note the benefits of the WSIC Dashboards to support system wide integration and proactive case funding and management of patients.

3. REASONS FOR DECISION

3.1 Health and Wellbeing Boards have a duty to promote greater integration and partnership between bodies from the NHS, public health and local government. Information sharing between the NHS and local government is a key enabler of more integrated and people-centred health and care services.

4. INTRODUCTION AND BACKGROUND

- 4.1. The WSIC Dashboards provide care professionals with a patient-level integrated care record and a variety of tools that can be used to support case finding, care planning and case management.
- 4.2. Bringing together all the different parts of the health and social care system will provide improved communication and sharing of relevant information to support patient care.
- 4.3. The WSIC Dashboard is a key enabler for delivery of NWL's Sustainability and Transformation Plan (STP) and primarily the following Delivery Areas: better care for people with Long-Term Conditions (LTCs); better care for older people; and improving health and well-being.

5. PROPOSAL AND ISSUES

5.1 This pack provides an introduction to the WSIC Dashboards Programme, implementation across NWL, and information on future plans and development.

LOCAL GOVERNMENT ACT 2000 LIST OF BACKGROUND PAPERS USED IN PREPARING THIS REPORT

NWL Whole Systems Integrated Care (WSIC) Dashboards

London Borough of Hammersmith & Fulham

Health & Wellbeing Board

20th June 2017

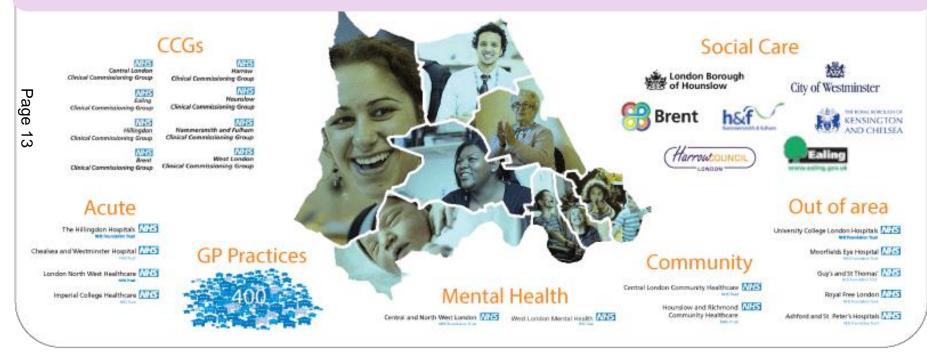

2. Explain how the WSIC Dashboards are being used to coordinate care for NWL patients.

Who is developing the WSIC Dashboards?

Key enabler to North West London's Sustainability and Transformation Plan (STP)

Key facts • Over 2 Million People • Over £4bn Annual Health & Care Spend • 8
 Local Boroughs • 8 CCGs & Local Authorities • Over 380 GP Practices • 10 Acute & Specialist Hospitals • 2 Mental Health Trusts • 2 Community Health Trusts

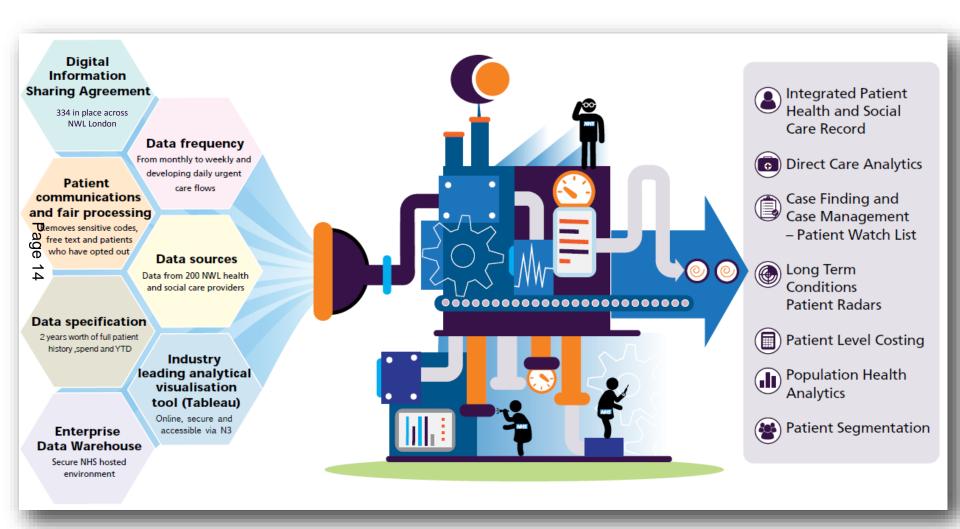

What are the WSIC Dashboards?

WSIC secure data warehouse, integrated care per patient records

GP practice and Borough data being shared and linked with acute, mental health and community providers across NLW

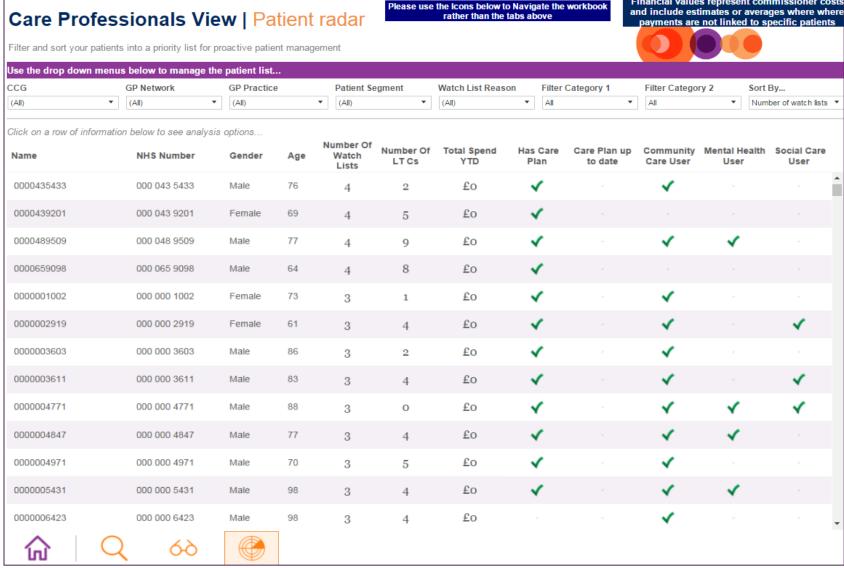

Digital Information Sharing Agreements (ISA) in place with 334 health and social care providers across the NWL system – covering over 816,263 people

Create lists of patients using a pre-determined set of filers using the Patient Radar for the purpose of case finding and patient selection

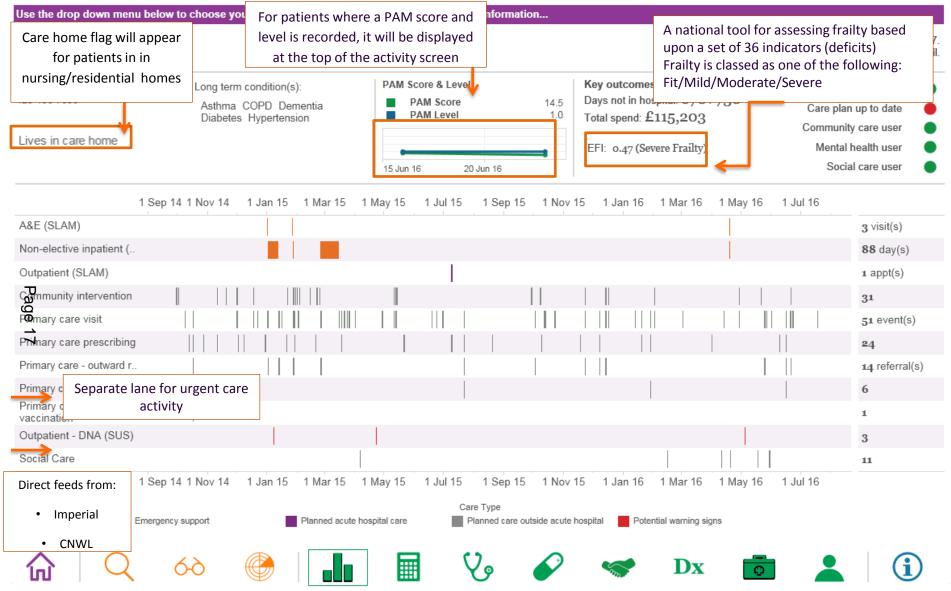

Page

တ

New features and functionality in the Patient Activity timeline...

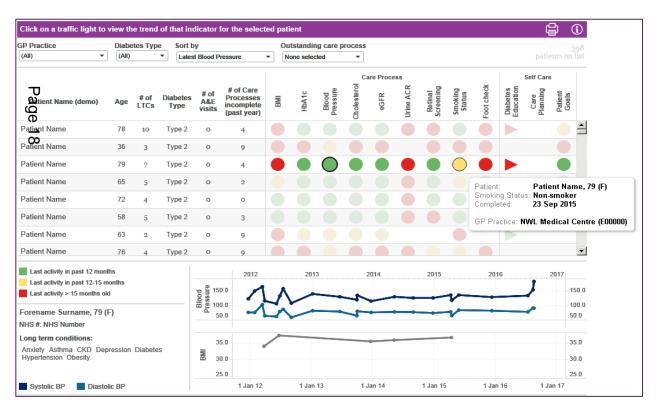

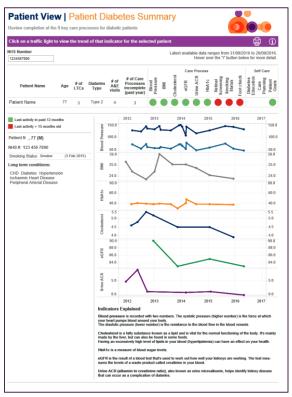

First LTC specific view of the data for Diabetes now live and available for use...

The Diabetes Radar is based on the existing CWHHE Excel dashboard developed by Dr Tony Willis. This automated radar has been deployed to NWL GP Practices

- ✓ Demographic (Age, Gender)
- ✓ Number of A&E attendances
- ✓ Diabetes diagnosis (Type)
- ✓ Completion of 9 key care processes (+ latest result, trends and individual targets where applicable)
- ✓ Self care info (Diabetes Education, PAM, care plan, patient goals).

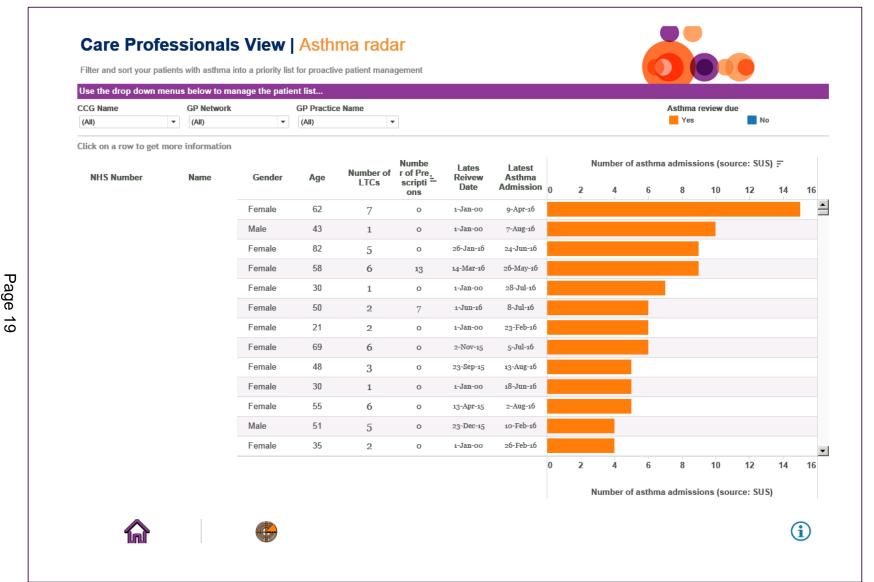

First iteration

of Diabetes

Radar

We have developed an Asthma Radar that is currently being piloted...

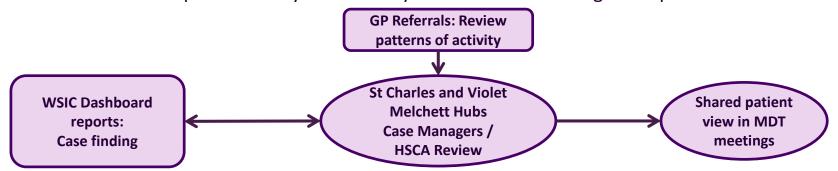

West London CCG and the WSIC Dashboards

The WSIC Dashboards are used by My Care My Way staff regularly to check patients that they are due to see to understand patterns of system activity and to case find using the reports detailed below

| Case Managers use the WSIC Dashboards to create the following generation: | Timeframe | Where information will be found in the WSIC Dashboards |
|--|-------------|--|
| Care Plan tracking - List of patients with out of date care plans | Monthly | Using the 'Care Plan out of date' Watch List |
| Review of most expensive patients - Case find expensive patients that have not been referred into My Care My Way (WL WSIC Hub) | Fortnightly | Use the 'High Cost' filter in the Patient radar |
| Produce list of patients with recent LTC diagnosis - use list a case finding pointer or prompt for care plan review | Monthly | Using the 'Recently Diagnosed with a LTC' Watch List |
| Produce list of regular In patient users - use list as case finding pointer | Monthly | Using the 'Regular Inpatient attender' filter in patient radar |
| or prompt for care plan review Produce list of most frequent A&E attenders - Review as a prompt for | Monthly | Osing the Negular inpatient attender litter in patient radar |
| Care plan review and case finding | | Using the 'Frequent A&E attendee' Watch List |
| Produce LTC care plan out of date lists for follow up | Monthly | Using the 'Care Plan out of date' Watch List |

All WL practices incentivised to use the WSIC Dashboards in CLS Plan for 2017/18 to identify top 25 high cost patients for review

DRAFT

How the WSIC Dashboards are being used to coordinate care for NWL patients

Using Betty's story.....

- Betty 87, suffers from COPD, Type 2 diabetes and arthritis.
- Coping well until Sam passed away, but now lonely and increasingly depressed.
- Frequently visits her GP and if she can't get hold of her GP in a crisis calls for an ambulance.

Using the WSIC Dashboards

- Care coordinator identifies Betty as a frequent A&E user and regular inpatient user on the patient radar
- Her activity timeline shows the care coordinator:
 - ➤ A sudden increase in her activity across the system, including a number of inpatient stays and A&E visits over the weekends;
 - She has not been treated for anything major in hospital;
 - She had a referral to social care but did not attend her appointment; and
 - > She is attending at the practice weekly.

We require support from the H&F Health and Wellbeing Board as follows....

How to raise awareness of the WSIC Dashboards across the system

2. Identify applications for local use of WSIC Dashboards

 Understand how this tool can help with Health and Wellbeing priorities across H&F.

LIST OF APPENDICES:

Appendix 1 - Proposal to establish Joint BCF Health and Social Care Transformation Programme (Powerpoint slides).

Proposal to establish Joint BCF Health and Social Care Transformation Programme

Joint Executive Team, Monday 12 June 17

Introduction

There is an ambition across all partners to work together to improve health and social care outcomes for all of our citizens and to deliver service efficiencies. Already exciting work is underway across the system and a review of key strategies and programmes confirm a shared and positive vision

This paper sets out a proposed way forward, using the Better Care Fund Plan, the Joint Executive Team and a Joint Investment Fund as key levers for delivering change.

It also sets out a proposed programme and governance arrangement to deliver the changes proposed.

Current Position

- Enormous number of projects/initiatives underway; many overlapping; scope and governance not always clear
- Good people, shared desire to deliver the best outcomes for our citizens,
- Increasing challenging financial environments across health and social care and increasing demand for resources because of demographic pressures.
- Existing social care model which will align well with health integration and STP plans
- Refreshed Health and Wellbeing strategies across the three boroughs and a Sustainability and Transformation Plan which aligns.

Unprecedented challenges for local health and social care system

Across the NWL health and social care system partners are faced with unprecedented systems challenges

Health & Wellbeing

Care & Quality

Finance & Efficiency

Page

- Adults are not making healthy choices
- Increased social isolation
- Poor children's health and wellbeing
- Unwarranted variation in clinical practise and outcomes
- Reduced life expectancy for those with mental health issues
- Lack of end of life care available at home
- Deficits in most NHS providers
- Increasing financial gap across health and large social care funding cuts
- Inefficiencies and duplication driven by organisational not patient focus

- 20% of people have a long term condition¹
- 50% of people over 65 live alone²
- 10 28% of children live in households with no adults in employment³
- 1 in 5 children aged 4-5 are overweight⁴
- Over 30% of patients in acute hospitals do not need to be in an acute setting and should be cared for in more appropriate places⁵
- People with serious and long term mental health needs (e.g. schizophrenia) have a life expectancy up to 20 years less than the average⁶
- Over 80% of patients indicated a preference to die at home but only 22% actually did?
- If we do nothing, there will be a £1.4bn financial gap by 2021 in our health and social care system and potential market failure in some sectors
- Local authorities face substantial financial challenges with on-going Adult Social Care budget reductions between now and 2021

The financial challenge is immediate

NHS: NWL STP Footprint (8 CCGs)

- £7.3b spend
- £125m QIPP/Commissioner
 Savings
- £222.5m CIPP/Provider Savings
- £70 m shortfall

| | 17/18 Gross Budget (£,000) | 17/18 Income (£,000) | 17/18 Net Budget (£,000) | 18/19 savings target)(£,000) |
|-------|-------------------------------|-------------------------|-----------------------------|----------------------------------|
| WCC | 107,429 | 51,252 | 56,177 | 4,243 |
| RBKC | 79,233 | 22,251 | 56,982 | 1,650 |
| LBHF | 89,449 | 30,706 | 58,743 | 4,417 |
| Total | 383,540 | 104,209 | 171,902 | 10,310 |

Proposed way forward

- Health and Wellbeing Boards to play a key role in overseeing delivery of a single transformation programme which incorporates Health and Wellbeing Strategy, Sustainability and Transformation Plan and Better Care Fund Plan Priorities
- To develop momentum and trust, a shared transformation programme based around a limited number of clear priorities and simplified governance is proposed, which in turn should be supported by a shared team.
- Use Joint Executive Team to prioritise and coordinate projects and initiatives underway and to establish joint transformation programme overseen by H&WBs and CCG Governing Bodies.
- A shared transformation budget to enable a systems wide, evidence based approach to transformation is established.
- The Joint Executive Team work collaboratively to agree improved outcomes for citizens which will be achieved through the delivery of agreed projects

Guiding Principles

- People driven and outcomes led
- Relationships not money
- A system, not a silo approach

Better Care Fund 17/18 Budget Position – Proposed Joint Commissioning Projects

Currently the 3CCGs and the 3Bs spend through the BCF Section 75 Agreement around £153m per year in improving outcomes for vulnerable people. Of this, approximately £100m comes from Health and £53m from the three boroughs.

Approximately £17m is spent on protecting social care (previously S256) £41m on out of hospital services (including 13.9m on CIS), approximately £40m on services for people with learning disabilities, £18m on mental health services and £23m on services for older people.

For both sets of organisations there is an increasing requirement to deliver efficiency savings. While work is progressing well to achieve a settlement in 17/18. It is anticipated that both sets of organisations will need to deliver efficiency savings in 2018/19. To prepare for this is proposed three joint commissioning projects are established

| Community Independence Service | Will examine value for money, effectiveness and long term plan for Community Independence Service, including opportunities for greater integration |
|--------------------------------------|--|
| Mental Health | Will examine opportunities to achieve better outcomes and value for money form existing joint Section 75 spend; opportunities for more innovative approach and greater collaboration |
| Learning Disabilities | Will examine opportunities to achieve better outcomes and value for money form existing joint Section 75 spend; opportunities for more innovative approach and greater collaboration |

It is also proposed that a session of the JET is scheduled in order to enable each set of organisations to set out current levels of spend, budget challenges and savings proposal.

Proposal for other projects to be incorporated within Transformation Programme

Along with the three proposed joint commissioning projects (CIS, MH, and LD) it is proposed that five additional projects are undertaken as part of the joint transformation programme. These have been identified on the basis that they represent important joint priorities for all partners and are key to improving system-wide outcomes

| Improved Hospital Discharge | This is an iBCF Grant Condition, essential to reducing pressure on acute providers and a priority for social care in order to reduce unnecessary referral to residential care homes and long term dependency. There is also an outstanding requirement to review the effectiveness of the existing seven day working arrangement |
|--|---|
| Improving Care Homes | Currently the quality and sustainability of care homes across the 3B is not acceptable. This results in poor outcomes for residents, unnecessary hospital admissions and too many deaths in locations that a citizen has not chosen |
| Optimising and sustaining delivery of domiciliary care | A key condition of the new iBCF additional funding is that local authority and health partners optimise their use of domiciliary care to increase independence, reduce delayed transfer of care, reduce admissions to long term residential and nursing care and to ensure the sustainability of the home care market. In addition there is currently work underway to examine the feasibility of home carers undertaking low level health care tasks |
| Whole System/ Integrated Care | In each borough different and exciting projects are underway to develop integrated, multi disciplinary working within the community. Within each area the ambition within 2 or 3 years is to provide for vulnerable adults a single care plan and combined health and social care offer, provider through an accountable care partnership |
| Single Commissioning | Opportunities to achieve better value for money, reduced transaction costs and better outcomes have been identified through a single or joint commissioning approach (see separate paper on agenda) |

Key projects it is proposed are not included in 17/18 programme

Across the health and social care system there are currently more than 100 projects or initiatives underway aimed at improving health and social care provision. It is not possible to deliver all of these through the Better Care Fund Transformation Programme or for them to be overseen by JET. However presented below are a number of the key projects and programmes and a rationale for not including in the BCF Transformation Programme 17/18

| Project | Commentary |
|---|--|
| Falls Prevention | There are 4 or 5 Falls projects underway including work led coordinated through the WLA. In addition a Public Health Research Fellow has been appointed to coordinate this work. There are strong arguments for including this within the BCF Transformation Programme |
| Estates | From a citizens perspective, health and social care support is fragmented, there are over 100 GP surgeries, some community and urgent care services are delivered from other locations and social care services are delivered from more than 20? Locations. There may be opportunity to release assets to invest in services |
| Outcomes measurement & data sharing | Through the WSIC Dashboard there is an opportunity to support better joint working and outcomes measurement through better utilisation of the Whole Systems Dashboard |
| Workforce | Workforce. All organisations currently face challenges in commissioning and providing services with sustainable workforces and in attracting and developing staff able to deliver health and social care support. |
| Contact | Project focussing on Estates currently proposed but also opportunities to coordinate telephone and web contact better. Suggest contact a focus for year 2 |

Future Governance Arrangements

Joint Chairs Meeting (3B Chairs, 3 CCG Chairs)

Joint Executive Team (JET)(3B ALT & DCS, CCG MDs)

BCF Executive Steering Group (BCF Sponsors & FDs)

Project Board for each BCF Project

To provide an impetus for transformation and joint working it is proposed that the JET is reconstituted to oversee and direct the BCF Transformation Programme and also to consolidate and streamline upwards decision making and support.

It is also proposed the BCF Board be reconstituted as a Joint Chairs Meeting, meeting quarterly, with a wider, more strategic remit that includes engagement with STP and Health and Wellbeing Boards

It is proposed that the existing BCF Implementation Group and Lead Financial Officers Group is replaced with a smaller BCF Steering Group which brings together programme and financial oversight and which holds Project Sponsors accountable on a day to day basis for the delivery of agreed outcomes.

It is proposed that each BCF Project be co-led by a 3B or 3 CCG Director, with support at the same level from the other organisation.

Page 33

Next Steps: Programme Sponsors and good citizen outcomes

It is proposed that JET consider what good outcomes for citizens looks like for each of its key projects and allocates a project sponsor from each group of organisation and prioritise when project mandates will be presented to JET

HEALTH AND WELLBEING BOARD

20 JUNE 2017

ANNUAL REPORT OF THE DIRECTOR OF PUBLIC HEALTH 2016-17

Report of the Director of Public Health

Open Report

Classification - For Discussion/Decision

Key Decision: No

Wards Affected: All

Accountable Executive Director: Sue Redmond, Interim Executive Director of

Adult Social Care and Health

Report Author: (name and title)

Colin Brodie, Public Health Knowledge Manager

Contact Details:

Tel: 020 7641 4632

E-mail:

cbrodie@westminster.gov.

uk

1. EXECUTIVE SUMMARY

1.1. This report introduces the theme of wellbeing, and particularly mental wellbeing, for the annual report of the Director of Public Health for 2016-17. It provides an opportunity for the Health and Wellbeing Board to discuss and contribute to the development of the report.

2. RECOMMENDATIONS

2.1. The Health and Wellbeing Board are invited to consider and discuss the approach to the 2016-17 report of the Director of Public Health. In particular, the Board are invited to consider the following:

- How can we best organise and harness the efforts of society to promote wellbeing in our population?
- What opportunities are there locally for the annual public health report to provide a springboard to action in our communities?
- Are the Health and Wellbeing Board members aware of local positive stories/case studies that could feature in the report?
- How do the Health and Wellbeing Board wish to continue to be engaged in the development of the report?

3. REASONS FOR DECISION

- 3.1. There is a statutory duty for each Director of Public Health (DPH) to produce an independent Annual Public Health Report (APHR). This report is the DPHs statement about the health of local communities, and builds on the local Joint Strategic Needs Assessment (JSNA).
- 3.2. The theme for the 2016-17 report will be wellbeing, and will have a particular focus on mental wellbeing. Wellbeing is a key public health issue and underpins local strategy and priorities, including the Hammersmith and Fulham Joint Health and Wellbeing Strategy 2016-21.
- 3.3. Mental health is a determinant and consequence of physical health. Around 1 in 5 residents in Hammersmith and Fulham are estimated to have a common mental health disorder, higher than the London or England average. Yet national research suggests that 75% of people with a mental health illness do not receive treatment. Promoting positive mental wellbeing can build resilience and protect against poor mental and physical health.

4. INTRODUCTION AND BACKGROUND

- 4.1. Definitions of wellbeing and mental wellbeing often vary across disciplines. Broadly, it includes concepts of happiness, life satisfaction, feeling good, functioning well, and other positive states. Wellbeing involves both the mind and body physical and mental wellbeing are closely related. The 2008 Foresight report considers mental wellbeing as:
 - "...a dynamic state, in which the individual is able to develop their potential, work productively and creatively, build strong and positive relationships with others, and contribute to their community"
- 4.2. This APHR is an opportunity to provide a call to action and highlight the importance of protecting and promoting our own wellbeing and the wellbeing of those around us family, friends, carers, colleagues, and communities.
- 4.3. The report will be presented in a way that makes the key messages easily accessible to members of the public as well as colleagues across the local authority, healthcare, and community and voluntary sectors. This will include a poster format, which will be structured around the <u>5 Ways to Wellbeing</u>: Connect; Be active; Take notice; Keep learning; and Give.

- 4.4. The wider determinants of health are key to wellbeing, and the report will highlight factors that contribute to poor wellbeing, such as overcrowding/housing, physical inactivity, child poverty, and unemployment.
- 4.5. The report will also identify local assets, services and activities that contribute to positive wellbeing, e.g. parks and green spaces, workplace health, volunteering, street markets, local festivals, the work of the community champions.
- 4.6. The report is expected to be published around late August/early September 2017

5. WORKSHOP DISCUSSION

- 5.1. We would like to invite the Health and Wellbeing Board to contribute to the development of the report and would welcome a wide-ranging workshop discussion on the theme of wellbeing. In particular, the Board are invited to consider the following:
 - How can we best organise and harness the efforts of society to promote wellbeing in our population?
 - What opportunities are there locally for the annual public health report to provide a springboard to action?
 - Are the Health and Wellbeing Board members aware of local positive stories/case studies that could feature in the report?
 - How do the Health and Wellbeing Board wish to continue to be engaged in the development of the report?
- 5.2. Board members are also welcome to contact Mike Robinson or Colin Brodie directly.

Harley.collins@lbhf.gov.uk

1. EXECUTIVE SUMMARY

1.1. This report updates on work to date developing a Delivery Plan for the Joint Health and Wellbeing Strategy 2016-21 (JHWS).

2. RECOMMENDATIONS

- 2.1. The Health and Wellbeing Board is asked to:
 - a) Note progress developing the Delivery Plan to date;
 - b) Agree priority areas of focus for the Board going forward

3. REASONS FOR DECISION

3.1. The Health and Wellbeing Board must prepare a strategy that meets the needs identified in the Joint Strategic Needs Assessment.

4. INTRODUCTION AND BACKGROUND

- 4.1. Throughout 2016, the Health and Wellbeing Board and partners led a wideranging public consultation and engagement exercise to develop its Joint Health and Wellbeing Strategy (JHWS) and agree priorities for 2016-21.
- 4.2. Following adoption and approval of the strategy at the end of 2016, the Health and Wellbeing Board agreed that further work should take place to transform the high-level priorities agreed into a set of projects and programmes with a set of indicators to measure the Board's impact and progress.
- 4.3. Work has been underway in 2017 to develop the JHWS Delivery Plan and has been led by a Partnership Working Group of officers from the Council and the CCG.
- 4.4. The starting point for this work has been to map the business plans of Adult Social Services, Children's Services and Public Health and the CCG against the JHWS priority areas and group work by themes to identify opportunities for closer integration and partnership working (see Appendix 2).
- 4.5. This draft Delivery Plan has been used to inform discussions at two facilitated workshop in February and April 2017. The goal of these workshops has been to consider the Board's effectiveness, ways of working and discuss opportunities for closer partnership and joint working.
- 4.6. Good progress has been made to date developing a framework for delivery of the JHWS but further discussion is still needed to agree the opportunities for closer integrated partnership working over the lifetime of the JHWS. The Board are asked to note progress to date and agree some broad priority areas of focus going forward.

5. PROPOSAL AND ISSUES

5.1. The JHWS Delivery Plan will be an important mechanism for driving partnership working between the Council, the CCG, and the VCS over the lifespan of the strategy. By developing closer, integrated working arrangements between organisations in Hammersmith and Fulham, residents should receive a better experience of health and care services delivering better health outcomes.

6. CONSULTATION

- 6.1. The HWB engaged widely and extensively with stakeholders and the public throughout 2016 to identify priority areas of focus for the next five years.
- 6.2. The HWB has held two half-day development sessions in 2017. On 14th February, HWB members met at Corinthians rowing club to review best practice from across the country and consider how the Board could operate more effectively and the programmes of work that should be prioritised via the delivery plan. On process and function, Board members agreed:

- <u>Purpose:</u> That the HWB can sometimes lose sight of its purpose (i.e. promoting a joined up approach so patients experience better care);
- Role: That the HWB should be clear about what parts of its delivery plan it will Watch (allow to happen in the back ground), Sponsor (help along) and Focus (bring collective resources to bear);
- **Style:** That the HWB can feel like a 'council committee' instead of a partnership body and duplicate the role of 'health scrutiny';
- <u>Membership:</u> That the HWB should have a consistent core membership and a wider membership for discussion of certain issues (e.g., housing, employment, provider reps); and
- <u>Meetings:</u> That the meeting format should be experimented with (e.g. less formal business, shorter succinct reports, more discussion, problem solving and listening).
- 6.3. On focus areas for implementation, the Board agreed that it could prioritise:
 - the mental health of a particular group such as children or older people
 - the sharing of information across organisational boundaries and professions; and
 - driving forward the prevention and early intervention agenda.
- 6.4. On 24th April, the HWB held a follow up workshop to develop the discussions from February. On ways of working, the Board were presented with a proposal that sought to address the issues raised at 6.2 which were:
 - A series of *themed* meetings
 - Held in and hosted by the community
 - A roaming venue moving around the borough
 - Wider membership, stakeholders and public invited
 - Listening and problem solving sessions (Part A)
 - 30 mins for formal business at start/end (Part B -critical issues only)
 - Walking tours highlighting local issues (optional)
- 6.5. The Board agree the proposal showed promise but that organisation and planning would be key and that further discussion should take place before trialling the proposal, learning from it and developing the approach iteratively.
- 6.6. On joint work going forward, HWB members were given a version of the draft Delivery Plan (Appendix 2) and asked to identify areas of focus by highlighting activities where there was less confidence that work was being progressed and where there was a need for a focused discussion by the HWB. Members were also asked to identify gaps in the plan and identify potential sponsor areas (where short and sharp HWB support was needed to get the work on track but which would then be taken forward by one or two agencies working together). The four groups were then asked to feedback the activities they had identified to see if there was an overlap in the thinking of the groups. The following gaps, focus areas and sponsor areas were highlighted:

FOCUS

- SEND transformation (specifically transition to adulthood)
- Healthy weight
- Dementia strategy
- Social isolation and loneliness
- Estates
- Finance
- Digital
- Workforce
- Comms and engagement
- Healthy high streets
- Housing
- Domiciliary care and care homes single commissioner
- Healthy workplace charter
- ASC Whole Systems Integration Programme

SPONSOR

- Implementing 'Future in Mind' to improve children and young people's health and wellbeing
- Suicide awareness training (initiate a conversation between stakeholders)
- Develop making every contact count implementation strategy

GAP

- Adults with learning disabilities (mental health)
- Role of wider determinants in the onset of long-term conditions
- Role of the voluntary and community sector in supporting resilience and self-care (prevention)
- Identification and support of carers (mental health)
- Communications and engagement what are the plans of the partnership?
- Adult social care Front Door and Demand Management programme to be joined up with the CCG
- Briefing note requested on CCG e-consultations work
- 6.7. The outcomes of this discussion will be presented at the next Health and Wellbeing Board meeting on 20th June 2017 for further consideration discussion and agreement (Appendix 1)

7. LEGAL IMPLICATIONS

7.1. The duty to prepare a Joint Health and Wellbeing Strategy ("JHWS") which meets the needs identified in the Joint Strategic Needs Assessment ("JSNA") falls equally on local authorities and clinical commissioning groups under s116A Local Government and Public Involvement in Health Act 2007. The s116 and s116A

- duties are exercised by the Health and Wellbeing Board (s196(1) Health and Social Care Act 2012).
- 7.2. As is clear from the relevant Department of Health guidance, the JSNA and JHWS are intended to improve the health and wellbeing of the local community and reduce inequalities for all ages, and that this is a continuous process of strategic assessment and planning. The Board's role in the development of the Implementation Plan is crucial in ensuring that the duties in respect of the JSNA and JHWS are complied with.
- 7.3. Implications verified / completed by: Kevin Beale, Senior Corporate Lawyer, Telephone 0208 753 2740

8. FINANCIAL AND RESOURCES IMPLICATIONS

- 8.1. There are no financial implications at this stage.
- 8.2. Implications verified/completed by: (David Hore, Finance Manager, 020 8753 4498).

11. IMPLICATIONS FOR BUSINESS

- 11.1 None identified.
- 11.2 Implications verified/completed by: (Antonia Hollingsworth, Principal Business Investment Officer David Hore, 020 8753 1698)

- Appendix 2: Draft JHWS Implementation Plan

Developing the Joint Health and Wellbeing Strategy Implementation Plan

Toby Hyde & Harley Collins
Tuesday 20 June 2017

Introduction

Good progress has been made in working to develop and agree a new Joint Health and Wellbeing Strategy for the period from 2016 to 2021. Consideration has been given by the Board to how it can work more effectively to achieve its vision and work has started on developing a joint implementation plan: identifying priority areas, gaps in current plans and agreeing how the Health and Wellbeing Board will oversee and ensure delivery of the implementation plan.

- Overview of key priorities and overlapping plans
- Agree how Health and Wellbeing Board will be involved in overseeing delivery of its priorities and associated workstreams
- Consider how the Board will ensure that resident's voices are heard in the delivery or development of key priorities
- Review work underway on current priorities and agree how the Health and Wellbeing Board will oversee and influence delivery

Page 45

Better Care Fund Plan 2016/17

- Jointly agreed plans
- Maintain social care
- 7 day services
- · Better data sharing
- Joint approach to assessment and care planning
- Agreement on impact on providers
- Invest in NHS
 Commissioned OOH
 services
- Action plan on DTOC

- Jointly agreed plans
- Maintain social care
- Invest in NHS commissioned OOH services
- Manage Transfers of Care

How will Health and Wellbeing Board oversee key policies and priorities and involve and consider residents

Ensuring resident's voices are heard in the delivery or development of key priorities

Informing

- Information and knowledge is provided and disseminated to members of the public to raise awareness of a particular issue or concern
- Health promotion campaigns, promotional materials, leaflets, posters, awareness raising

Consultation

- Residents are recruited to take part in research
- Public can share their views and experiences
- Inform the development and evaluation of services and materials
- Focus groups, interviews, social marketing research, feedback and evaluations

Participation

- Public are actively involved in an engagement project
- More indepth research and engagement with the public and service users
- Community members involved as peer researchers, help to design and shape the project

Coproduction

- Patients and professionals as equal partners
- Involvement in the design and delivery of services
- Builds on the strengths and assets of community members.
- Public involved in full commissioning cycle desig n, procurement, delivery, evaluation,

Reviewing priorities

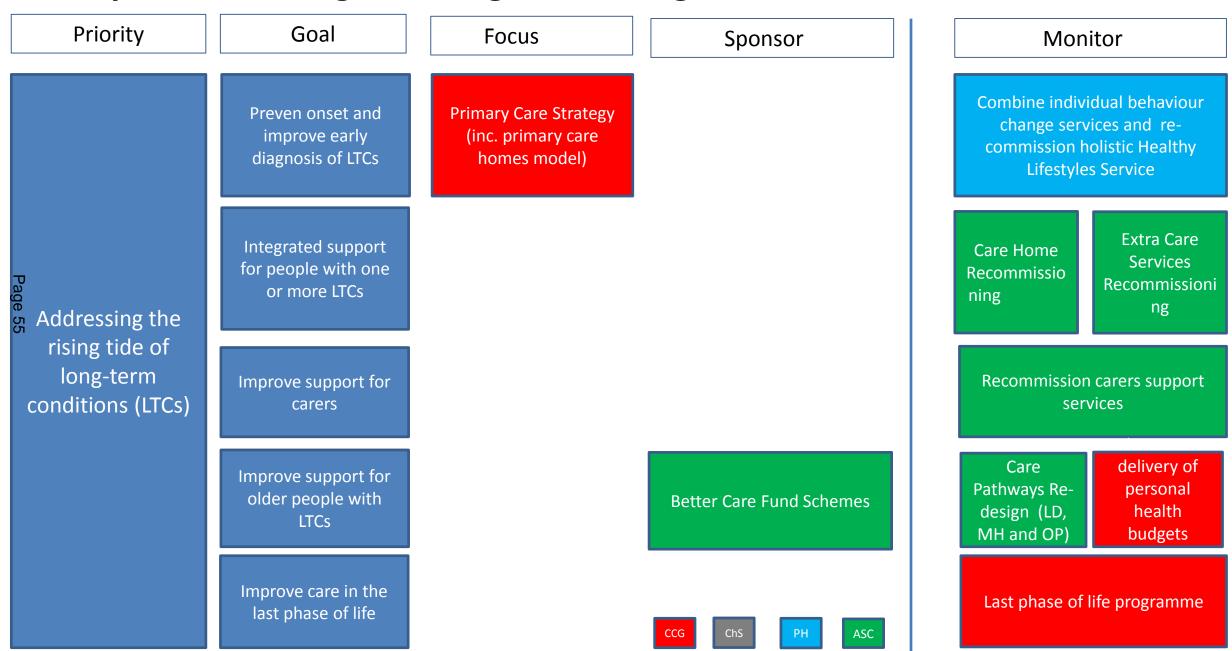

| Focus | This is a key strategic project for the Health and Wellbeing Board where there will be added value in the Board working collaboratively with partners to drive delivery Integrated care for Children and Young People Mental Health and Wellbeing for older residents | | | | | |
|----------------------|--|--|--|--|--|--|
| Sponsor | This is an important priority for the HWB where there will be benefit in the Board shaping and influencing the direction of the work by receiving and considering key decision and update reports • Better Care Fund Plan, Sustainability & Transformation Plan • Key strategies and plans: Forward Plan | | | | | |
| Watch | While the project or initiative is important to the delivery of the Health and Wellbeing Strategy the role of the Board will be to monitor progress as part of a regular monitoring report each year | | | | | |
| Business as Usual | This activity should not form part of the Health and Wellbeing Implementation Plan • E.g., mandated contract or commissioning (re)negotiations | | | | | |
| Gap | Currently insufficient or limited activity has been identified to deliver this Health and Wellbeing Strategy priority | | | | | |

Review of policies and priorities

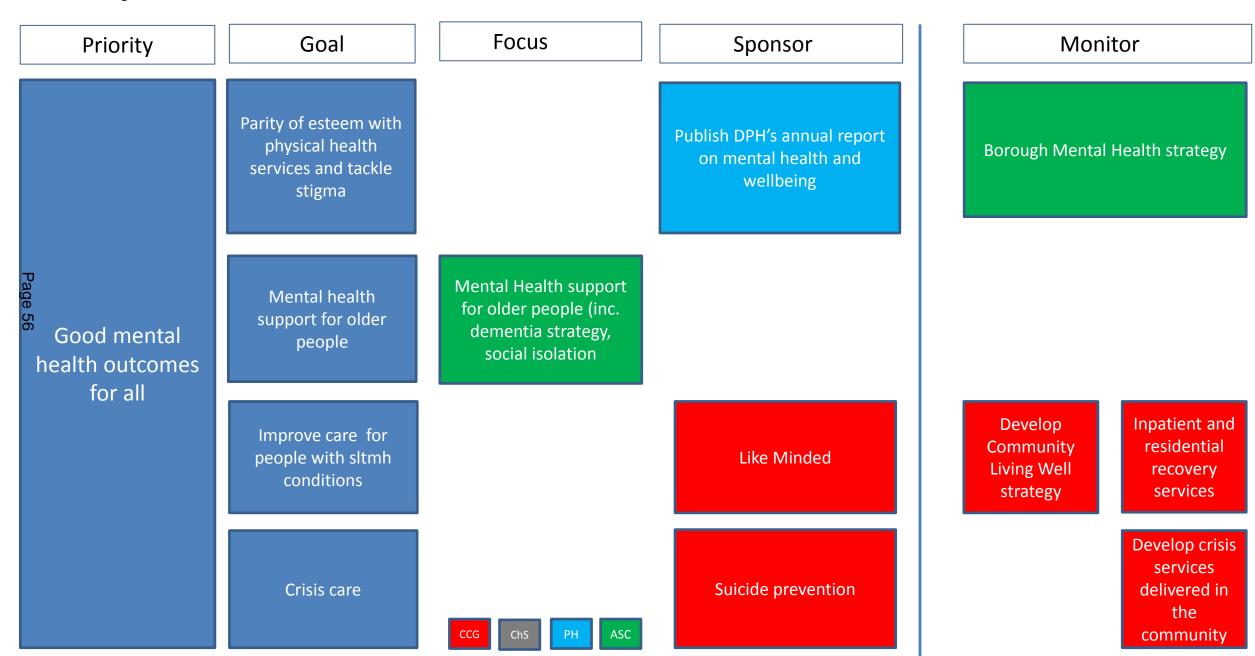

Priority 1: Best start in life children, young people and families

Priority Goal **Focus Sponsor** Monitor Integrated Care for Integrated health and Children and Young Emotional health and care for CYP and People (inc. Integrated wellbeing (inc. implement Preparations for Adults Programme families Families Support 'Future in Mind') Service) Improved health and Enabling Independence and wellbeing for people Life Chances (inc. SEND with complex needs strategy and transformation) and disabilities Giving children, young people Support and families the Improved support for implementation Promote good best start in life of oral health parents and maternal health guardians promotion service Support for children **Update obesity** and families to lead strategy and healthy lifestyles action plan

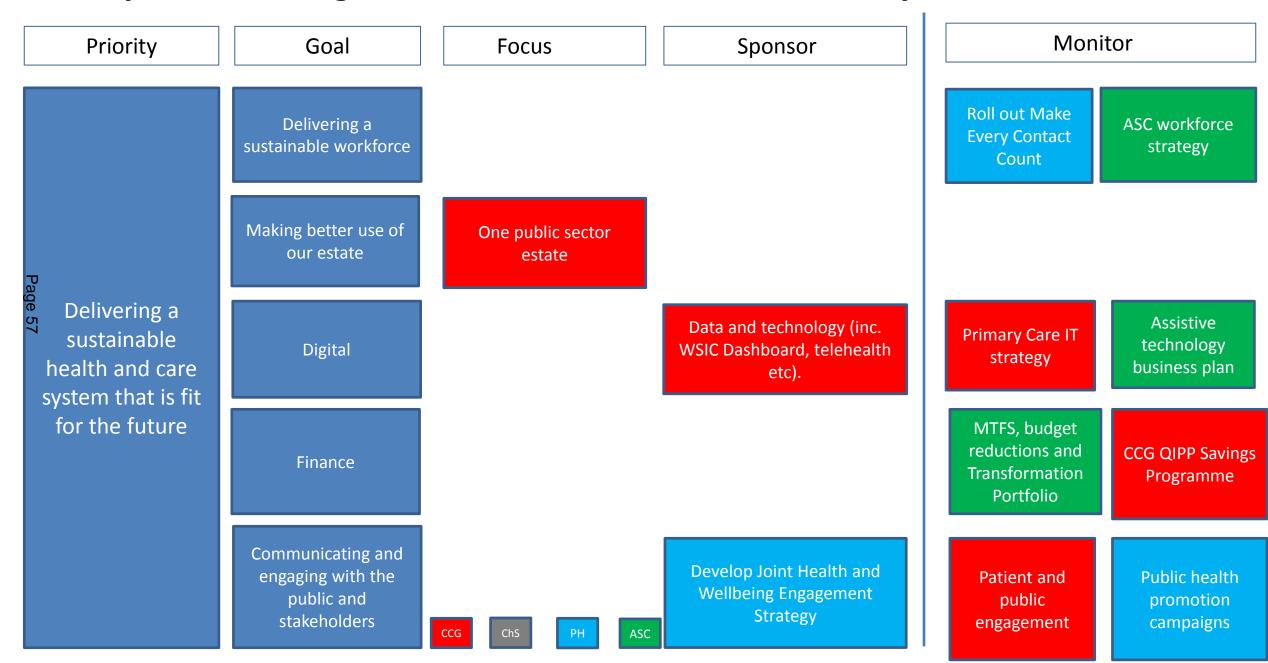

Priority 2: Addressing the rising tide of long term conditions

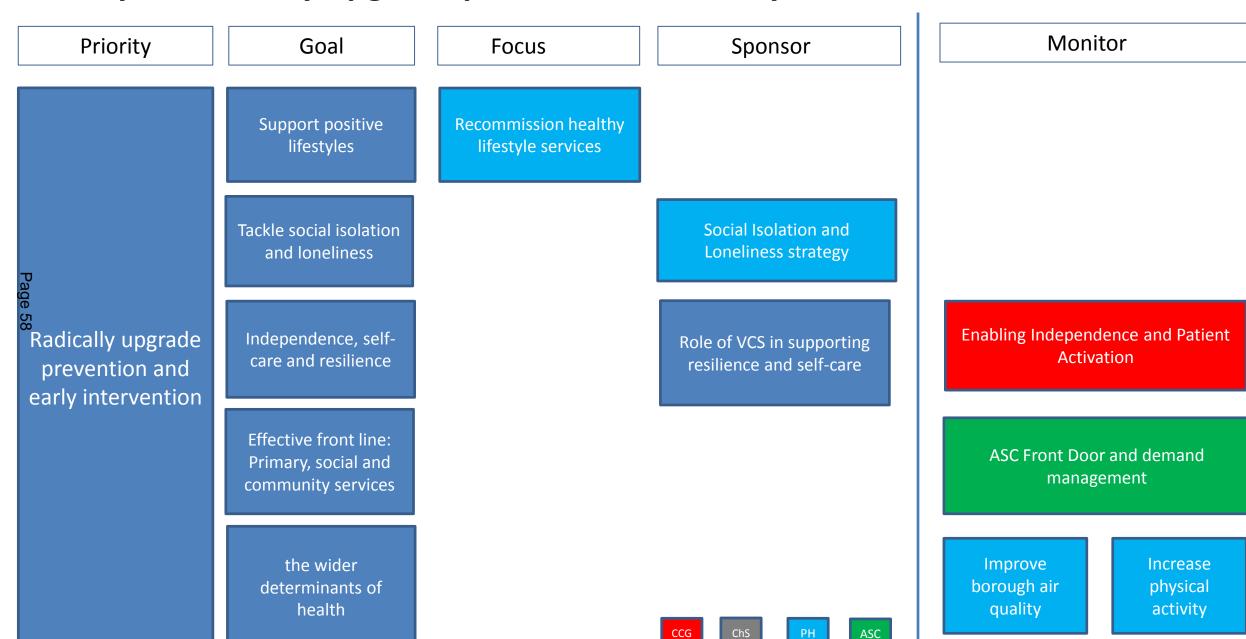

Priority 3: Good mental health for all

Priority 4: Delivering a sustainable health & social care system

Priority 5: Radically upgrade prevention and early intervention

| or all | stigma and deliver parity between physical and mental health services | between physical and mental health and ensure both are | Development of IAPT and LTC model o H&F IAPT already undertaking some LTC work/groups/interventions but plan to increase these as their capacity increases pending outcome of NHSE transformation fund bid. Work with service and as a tri borough to support this delivery. | LBHF | | | |
| | | | | | | | |
| | | | Objective: Upgrade mental health prevention efforts Key deliverables: Publish the Director of Public Health's annual report on mental wellbeing in order to initiate review of mental illness prevention locally. | LBHF | Public Health | | |
| | Improve mental health services for older people | 1 | WLMHT Dementia service (01/08/2017) o Business case approved at F&P Feb 2017 to increase staffing model to include dementia link workers, increase pre and post diagnostic support | CCG | Public Health | | Increase the number of Dementia Friends in the borough each year |
| | | 5. Provide early mental health support for older people through effective information and advice and signposting to preventative / universal services | Social Isolation and Loneliness Steering Group o Co-ordination and shared learning of social prescribing projects across NWL. o Piloting of Age of Loneliness application with the voluntary sector Commissioning support to services that reduce isolation for Older People o Desktop research on effective ways (Nationally/Internationally) on reducing isolation o Understand specific services needed to reduce isolation in Older People o Map out what is available presently (DOS) o Evaluate / Commission appropriate service to reduce isolation o Effective communication of services that support isolation — signposting o Refresh service directions and ensure all services provide leaflets to GP's / Care Homes / Hospitals o Involve / communicate with key stakeholders and gain agreement / "buy in" to project o Develop Project Plan, Project Workbook and Communications plan | CCG | | | reduce social isolation and loneliness among the borough's older people |
| | Improve care for people with serious and long term mental health conditions | | Like minded prevention workstream (HSC Local implementation Group for SLMH Workstream) o H&F Health & social care work stream considering befriending, crisis café, day centre, peer support, dual diagnosis service and higher supported accommodation. | CCG | CCG / DA4: Improvin outcomes for children and adults with mental health needs | b Like Minded c Strategy for Mental Health Five Year Forward View for Mental Health | Reduce the gap in life expectancy between adults with severe and endumental illness and the rest of the population reduce preventable early deaths am people with serious mental illness. Reduction in secondary mental healt caseloads |
| | | | Social Prescribing o Building on the learning of the two social prescribing pilots review the options for a borough wide approach to address the social, emotional and practical needs that impact on health and wellbeing PCMH (CCG MH priority no2) o Investment required to increase PCMH support including 5th PCMH worker plus psychiatry, psychologist and peer support. o Refresh business case, local monthly implementation steering groups, working with Recovery team to discharge suitable patients unto PCMH. | CCG | | | More people supported to stay wellonger in primary care |
| | | | • Early intervention in psychosis service | CCG | | | |
| | | | Payment mechanism for mental health services moving towards outcome and quality measures | CCG | | | |
| | | | Implement new model of care for people with SMI and Itmhn, to improve physical and mental health and increase life expectancy 16/17 actions • Start implementation of the Community Living Well Service, bringing together clinical and wellbeing services to provide integrated support to people with stable serious Itmhns who are supported in primary care Implement the Community Living Well Service, bringing together clinical and wellbeing services to provide integrated support to people with stable serious Itmhns who are supported in primary care 17/18 actions • Evaluate impact of CLW service and continue to develop service network • Integrate primary and secondary care pathways • Integrate as part of wider Integrated Health and Wellbeing Centres | CCG | | | 2020/21 outcomes • Integrated support for people with stable long term mental health needs which improves mental physical and stresilience • Seamless pathways across secondar and primary care • Greater number of people supported primary care • Improved physical health for people with sltmh conditions |

| | | Community Living Well Progress so far: Good progress on cross-agency OD and recruitment. IT issues may delay opening of VMC - due May 2017 Actions 2017/18 Develop the Community Living Well strategy to prevent people getting unwell, improve pro-active care and plan for increased capacity for OOH MH & IAPT services Inpatient and Residential Recovery Services | | DA4: Improving outcomes for children and adults with mental health needs DA4: Improving | |
|---------------|---|--|-----|--|--|
| | | Progress so far: • Scoping document being prepared, and initial meeting of CCG and LA partners held. Working group to finalise strategy including both MHTs to be initiated May 2017. Actions 2017/18 • Develop a strategy and action plan covering the Tier 4 Pathway (In-patient, Rehabilitation, Out of Area and supporting Panel Processes) with the aim of ensuring effective pathway flow, reduced DTOCs, increased alternatives to in-patient admission and elimination of unwarranted OOA placements/ECRs in line with NHSE requirements | ccd | outcomes for children and adults with mental health needs | |
| | | Better Care Fund Schemes Scheme ref: B4 Joint Commissioning Developments Scheme name: Mental Health Outcomes: Identify the structure for the project Improve the processes prioir to panel, to ensure Care plans & reviews are presented in a timely/quality manner Explore options for pooling funding for joint placements Agree way forward for shared protocol for joint and separate funding for placements Discuss wider opportunities for joint working Deliverables 2017-19 Reduction in the numbers in long term MH placements Options for pooling funding for joint placements | 3B | | |
| | 8. Ensure that crisis support is available for people with serious and long-term mental illness | Suicide prevention o Awareness training commissioned for staff and volunteers | CCG | DA4: Improving outcomes for children and adults with mental health needs | |
| mentariliness | | Evaluation of WLMHT SPA o WLMHT SPA has been evaluated and lessons learnt incorporated into future development of service. o To develop warm transfer of calls from 111 to SPA MH SPA Link o Linking the 24/7 mental health crisis support line in north west London to 111, allowing residents undergoing a mental health crisis to access appropriate specialist support via 111 without having to redial. Repatriate out of area patients and improve cross boarder arrangements and funding with CNWL o Review contract specifications. o Clarity and implement processes for repatriation of patients | CCG | needs | |
| | | High Quality Specialist Community Treatment, delivered consistently to time, and increasingly in the community. Progress so far: • SLTMHN Model of Care approved by TB (14/3/17). Local Urgent Pathway being redesigned to address process and delivery issues and will be included in final SLTMHN BC to GB early in July. Actions 2017/18 • Develop Crisis Services to ensure patients are cared for by the rapid response team at home not hospital and reduce unnecessary emergency admissions and facilitate early discharge. Ensure that no preventable MH patients are assessed in Emergency Departments. | CCG | | |

| | | Outcomes: | | | |
| | | outcomes. | | | |
| | | ASC Front Door and Demand Management Programme | 3B | | |
| | | - Single commissioning strategy that brings together ASC, Public Health, Corporate and CCG funding. | | | |
| | | - Refocus towards targeted prevention, short term interventions and priority outcomes. | | | |
| | | - Simplify front door system for ASC: digital development and self service and transfer to lead provider and/or health front doors. | | | |
| | | | | | |
| | | - Extend focus on community and asset model of service delivey | | | |
| | | - Establish cross sector analytical and demand management function. | | | |
| | | Workstreams: | | | |
| | | 1. Commissioning Strategy – Paul Rackham | | | |
| | | 2. Front Door Development – Stella Bailie & Marc Cohen | | | |
| | | 3. Analytics and Demand Management – Una McCarthy | | | |
| | | 3. Analytics and Demand Management – Ona McCarthy | | | |
| | | | | | |
| | | ASC Whole Systems Integration Programme | 3B | ASC | |
| | | - Integrate all back office services including commissioning, business analysis, communications and workforce development. | | | |
| | | - Integration of hospital discharge, CIS and community SW teams with provider trusts supported by systems and practice development. | | | |
| | | - Development of joint commissioning plans for top cross sector service priorities - as a step toward ACPs. | | | |
| | | Workstreams: | | | |
| | | | | | |
| | | 1. Back Office Integration – Mike Boyle | | | |
| | | 2. Provider Integration – Stella Baillie | | | |
| | | 3. Joint Commissioning and ACP – Sarah McBride | | | |
| | | | | | |
