This grant accounts for two thirds of the total cost of upgrading the old gas system to an electric system alongside other building fabric improvement. In order to draw down on the grant, the Council will need to urgently procure a capital works contractor. The grant, worth roughly £465,330, must be utilized before March 2022, or otherwise will be lost and cannot be awarded again; an application for an extension was rejected by the funding partner. In addition, if the Council is unable to spend the grant within the above timeframe there is a risk that future applications for grant funding will not be considered, which could have a knock-on effect on delivery against the 2030 net-zero carbon target.
