Both your representations and the Executive's response will be published on the Council's website at least 5 working days before the Cabinet meeting.

These increases have many impacts on residents and buildings and the associated infrastructure including the failure of operational systems such as lifts.</p> <p>Since 2020, we have noticed a rise in temperatures during summer months, which has resulted in 50 lifts going out of service as the operating temperatures in motor rooms housing the plant are exceeded. This results in significant impacts on residents in accessing their homes or exiting the building. The installed passive air flow grilles in the motor rooms are inadequate to provide a cool operating function and therefore there is need for the provision of active climatic control within the motor rooms.</p> <p>Furthermore, temperatures drop below freezing during the winter months, having an adverse effect on control units due to ice forming on motor room walls during the day with this resulting in condensation which pours into control panel</p>	Cabinet Member for Housing and Homelessness	A detailed report for all decisions going to Cabinet will be available at least five working days before the date of the meeting.
