1 Summary

- 1.1 The CCG is under financial pressure and needs to ensure it is using money in the most efficient way. The urgent care contracts are up for renewal so it is an opportune time to look at the current demand for services and to discuss whether savings can be made by reducing services when there is little or no usage from residents. Our data suggests that what we are currently paying for is not good value for money.
- 1.2 As part of this, the CCG is also looking at GP appointments provided outside core hours.
- 1.3 The report sets out four options. Consultation on these is planned to commence in early February lasting six weeks.
- 1.4 The Health and Wellbeing Board is asked to consider the report and provide feedback on the approach to consultation and whether it would like to formally respond to the consultation.
