

Health and Safety Policy Statement of Intention

We will strive to be the best by aiming to continuously improve health and safety performance through our governance arrangements; where management of risks arising in respect of health and safety at work forms an integral part of our business decision making process.

We recognise and accept our duty to provide and maintain a safe and healthy work environment for our employees, partners and others affected by our activities. We recognise the need for a sensible and proportionate approach to managing health and safety.

Each employee has a duty to co-operate in the operation of the health and safety policy by taking care of their own health and safety and that of others who may be affected by their actions or inaction and to cooperate with us by complying with any legal duty or requirement.

The health and safety policy details particulars of the organisation and arrangements for the management of health and safety within the London Borough of Hammersmith and Fulham. It is important that we all adhere to it and remember that the most powerful message we can send is through our own visible behaviour.

Leader of the Council

Chief Executive

Cllr. Stephen Cowan
