

PHOTOS OF THE MARKET AT ST MARYS SCHOOL

Cables exposed posing safety hazards

Cable covered with blackboard increasing the hazard of tripping on this

Gazebo falling over – traders seem completely unaware of this

Crates of empty bottles in pathways next to the dodgy gazebo and young child

Traders block pavement in morning – all parking spaces taken up

Traders leave equipment blocking pavement in afternoon – all parking spaces taken up

Children at risk of falling onto pavement – these children were playing for some time like this completely unsupervised, leaning well over onto the road side (and squirting water)

Children at risk of falling from playground equipment – there is a sign on the equipment saying “Do not use” and the child is climbing the outside of the equipment designed to keep children from falling – this must be at least 2m off the ground. A younger child is also on the out-of-use equipment to the RHS

Food left by traders – 12 June 21 when trying to not to litter – this was pecked at by crows and one was removed, probably by a fox

Rubbish bin outside Addison Primary School on 12 June 21 – this is very much what was going on at St Marys until very recently

Alcohol being served when there was no TEN – 19 May 21

Crate of booze on 19 May 21 when there was no TEN
