### Customer Details

Name: Mr James Mcauley

Email:

Address: Macfarlane Road London

### Comments Details

Commenter Type: Residents Group

Stance: Customer objects to the Licensing Application

Reasons for comment:

Comments: 20/05/2022 7:06 AM I would like to bring it to the attention of the council and planning department again the amount of alcohol licenses that have been applied for by Westfield shopping centre (over a 100) it is turning it from a shopping centre, original permission into a late-night drinking den and all the problems that that brings and not the original permission of use.  
I would like to object to this application on the grounds of the hour's 9.30am unto 1.30 in the early hour's of the morning are unacceptable and cause noise and Nuisance for local residents and is not the original permission for a shopping centre. I object to the music application as well because of the time's and hour's applied for.  
A review of the shopping centres activities and future needs to be accessed.

Kind regards

Subject: Re: Comments for Licensing Application 2022/00824/LAPR

Dear Maria Dimitriou,

Thank you for your email reply.

Yet again it is the length of opening licences hour's applied for and the number of days. Plus, the length of music licences and entertainment and alcohol licensing on and off the premises that they are applying for.

Westfield was granted permission for a shopping centre with controlled opening and closing hour's plus Sundays reduced hours of opening.

How and why do all of Westfields venues, bar's and restaurant's inside/outside flaunt this and get away with longer opening licensing hour's than there landlord and the other shop's and supermarkets within Westfields premises. And what about the other licensed establishment's in the surrounding areas of Shepherd's Bush Green, Uxbridge Road and Goldhawk Road ward's? Why are Westfields new alcohol licensing applications treated differently?

Do all these venues that have sprung up recently, 'well over 100 in a small area,' adhere to all your requirements and rules and policies; like door staff supervisors and entry policies, CCTV, signage, screening outside plus not to be used after certain TIMES and DAY'S and separated from the public highway, responsible management, Noise Issues, Match Day conditions, A Noise Management Plan?

They do not.

Because of the increasing number of people walking around wood lane pavements with acholic drinks in there hands going to and from these new venue's.

The increasing number of young people gathering with drinks on top of there parked car's playing music and congregating in Macfarlane Road and the entrance to the arches late at night. When these venues, pub's, hotels, pop-up bar's and late night licences close, is unacceptable.

Coming home last week 'Thursday 9pm' from Wood lane Station, the noise and disturbance from across the road outside at street level from The Broadcaster public house is unacceptable.

Including the new 'Solar Pergola', BBC TV CENTRE.

Being advertised as a 'glowing hotspot' with 'long days, 'from morning until golden hour,' Boasting, 'guaranteed to bring the summer alive with regular LIVE MUSIC and Giant screens of live Sport and Movies' plus 'POP-UP BARS'. Literally at pavement level on wood lane.

Which Westfield are now copying and have applied to do the same thing across the road on there premises.

Are you really aware of what's going on?

The original BBC TV center were never aloud to do any of these thing's. And they didn't have residents/tenant's living on their premises to disturb. Which Westfield and the BBC development do have.

All this is great if you do not live in the vicinity, taking advantage and making your way home to 'sleep soundly,' somewhere else.

I look forward to your reply to these questions and a resolve to this escalating problem that is happening to local residents.

Not one of these long hour alcohol licencing applications have grown organically or out of necessity from local residents involvement or needs.

But are forced upon us for profit and gain by people who do not live in the area and are granted permission by the local council.

A timely review is needed because of the effects on local residents from there noise pollution and disturbance, causing traffic and parking issues and chaos in our local streets plus litter and rubbish pollution.

Regards  
James Mcauley
