Subject: Re: Ringo Pizza Objections

Dear Licensing team,

Many thanks for advising the resident on our agreed conditions with the Police

I attach my reply to the objections received, I must ask for these objections to not be taken into consideration, they are making an objection regarding noise from motorbike deliveries to an area we do not deliver to, the complainant address is 2 miles from our premises and cannot be affected by the operation of our premises, more importantly we have not applied for delivery as we already have it on our current licence so the objection is not relevant to this application.

We believe this to be a vexatious objection based on a previous encounter with my client. Condition 6 has not been removed but merely amended to contain the word takeaway to suit the updated licence.

Therefore, we ask this be rejected in its entirety as nothing in it is relevant to our application. Please do let me know your thoughts.

Best regards
Tony Hunte on behalf of Ringo Pizza

Dear Licensing team please see reply to objections received, could you please pass on as no contact email or telephone number was supplied.

Thanks
Tony

Dear Ms Dexter-Murray & Ms Cottrell,

We have received your objections to the application for Ringo Pizza, there appears to be some misunderstanding, we would like to take this opportunity to clarify, we have not applied for delivery of late night refreshment as we already have this on our current licence.

What we have applied for is takeaway service from the premises to match the existing hours of operation.

To answer your 3 points of objection:

1. Delivery motorbikes are well used all across the borough and clearly not exclusive to our premises, in fact there appears to be several busy premises that deliver just a few metres from Barclay Road where you are being disturbed or woken, namely Kennedys fish & chip shop, Dominoes both are on the corner of your road, Best Mangal, Caffe Nero and countless others in the Fulham Broadway area. We are 2 miles from this address and do not have any deliveries to this area as there are many shops offering our service much closer. This would make it impossible for our deliveries to wake anyone in your area, the wording of the complaint may suggest a more general objection to motorcycle deliveries completely. Lastly i must emphasise this application is not for delivery as we already have this in place.

2. Condition 6 has been agreed with the police and amended to read:

The supply of Late Night Refreshment after 02:00 shall be by way of delivery or TAKE AWAY ONLY.

All deliveries shall be made to a bona fide business or residential address only.

Signs shall be displayed informing customers that the provision of late Night Refreshment shall be provided by delivery or takeaway only after 02:00.

The above clearly does as you have asked and tightens control on deliveries and operations after 02:00. It merely now includes the word 'Take away' to incorporate meals purchased from the premises.

3. All applications are scrutinised by all the responsible authorities on submission of the application, hence the negotiated wording of the condition above to be added to any granted licence. This has been agreed with the police following consultation and examination of the premises and area, the premises is in the Hammersmith Broadway Ward and a further 2 miles away in Fulham is Walham Green Ward, which contains your address within it.

To Summarise we are 2 miles from your address and do not deliver to your area, we are in completely different wards and therefore do not affect the Barclay Road Conservation Neighbourhood Watch, from my understanding the 'Town Ward' no longer exists and has been replaced by Walham Green Ward, i hope i have this information is correct but as a member you will know better than i. We already have in place Late Night Refreshment and have simply applied for takeaway from the premises utilising the hours we currently already have, there is no extension sought to the operating hours here and no extension to delivery hours.

Best regards
