## Comments Details

Commenter Type: Consultee

Stance: Customer objects to the Licensing Application

Reasons for comment:

Comments: 28/09/2022 10:10 PM I strongly object against the licence ( 2022/01318/LAPR) for

1. Health and safety issues

The building is not built to accommodate such a venue as cafe due to a faulty ventilation ( extraction regulations are not met) and isolation ( soundproofing building regulations are not met either)

2. Crime and disorder issues.

The building is inhabited mainly by single woman and since the opening of the venue the pavement is occupied by people therefore it is a feeling of insecurity and fear.

3.Noise

The tenants 'dont respect quiet hours and it is a huge burden to the residence.  
The process of setting up has been done outside working hours ( I have contacted Councils noise department twice already)  
It is not a quality of life that I am up to. My well-being has been compromised and my home is no longer a place I can rest and relax.

#### 4. Smoking

The building is smoking free zone for a safety reason and yet the cigarettes butts are left in front of the entrance .

The project of opening cafe in our residential building has not been communicated to me and other residents of the building. I live just above the "cafe"and I haven't received any single letter /mail informing me ( or other residents) of any change of use of the local...

Furthermore , following my today's conversation with the council planning department there is no evidence of any record this cafe being registered and set up in our building therefore it is not a legitimate and any alcohol licence should be granted.

Monika Palczak
