

LBHF Pension Fund Investment Consultant Review 2022/23

Background

As per the requirements of the Competition and Markets Authority (CMA), the Pension Fund must establish aims and objectives for its investment consultant. A set of consultant objectives were drawn up for the Pension Fund investment consultant, Deloitte, and approved by Committee on 26 November 2019.

After conducting an extensive review into the pension fund consultancy and fiduciary management industry, the CMA produced a report, detailing several recommendations to improve pension fund governance, with a number of concerns expressed around fees and conflicts of interest.

The Pensions Regulator (tPR) welcomed the review by the CMA and produced guidance on setting aims and objectives. The regulator's view is that it is good practice for pension funds, including the LGPS, to be setting aims and objectives for investment consultants and advisors in order to achieve better outcomes and manage areas of underperformance.

Performance Against Aims and Objectives

In line with best practice, the performance of the investment consultant against the objectives should be reviewed on an annual basis and the objectives updated at least every three years, or when there has been a material change in investment approach.

In the tables below are the agreed objectives and aims for the investment consultant, Isio, against which the consultant performance has been reviewed. Each objective has been assessed individually and assigned a rating as follows:
