Dear Licensing

As you are aware. I act for the licence holder for the above premises and I am hereby making representations on their behalf under section 53B(6) of the Licensing Act 2003 ('the Act') against the interim step of suspension imposed by the London Borough of Hammersmith and Fulham's Licensing Sub-Committee on 5<sup>th</sup> September 2024 under section 53B(3)(d) of the Act.

Please could you therefore arrange to hold an associated hearing within 48 hours of this email.

Many thanks

Kind regards,

Duncan Craig

Barrister

I, [REDACTED] team leader at McGettigans would like to inform the follow.

On September 1st, I was working during an event at McGettigan's Pub. The event proceeded smoothly throughout the night, with customers behaving in an orderly manner. However, between 1am and 1:15AM, there was a disturbance at the venue, although I was unable to see clearly what transpired. The situation was quickly managed by the security staff and I knowlege that a lady had injury on her head. First AID was provided prompt. I would like to emphasize that this was the only incident during the event, which overall took place peacefully and without issues.

Should you require any information or clarification regarding this incident, please do not hesitate to contact me

Dear Sr/Madam

My name is Deborah Gomes, and I am the General Manager at McGettigan's Pub, located at 1 Fulham Broadway. I am writing to provide a detailed account of an incident that occurred at our establishment in the early hours of September 1st.

During the event, I was in my office when I noticed on the security cameras that the staff was responding quickly around the DJ table. I immediately went to assess the situation. A member of the party informed me that a lady had experienced a minor seizure and had struck her head on the table. Her son, concerned about his mother, mistakenly thought she had been injured, prompting the security team to intervene and escort him outside for a calmer conversation.

To ensure the safety of all guests, I promptly stop bar service, music, and the lights were turned up until we could fully understand the situation. Around 1:21 AM, our first aid-trained bar staff provided an ice pack to the injured lady. When I offered to call the police or an ambulance, the family declined and chose to leave, stating that the woman had epilepsy and was accustomed to such episodes. Her daughter arranged for an Uber, and at that point, the situation was under control with no altercations.

However, at approximately 1:27 AM, the lady suffered a severe seizure but was quickly placed in a recovery position. The ambulance arrived at the premises at 1:35 AM, and they subsequently called the police.

The police attended the scene at 2:23 AM, and I provided them access to the CCTV footage. Unfortunately, we could not determine the specifics of the incident from the footage. No formal report was filed, as the family opted not to pursue any action, considering it a personal matter.

The police reviewed the CCTV and noted that the situation was de-escalated within 20 seconds, with no further incidents occurring. I remained on-site with the police until approximately 4:45 AM. The lady was taken to the hospital, where she underwent a CT scan, and fortunately, no damage was reported. She was stabilized and no longer in critical condition.

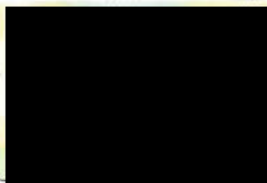

Officer P. Waish (Badge #4264) was the officer who handled this case, and I have relayed all relevant information to him. The case has since been closed.

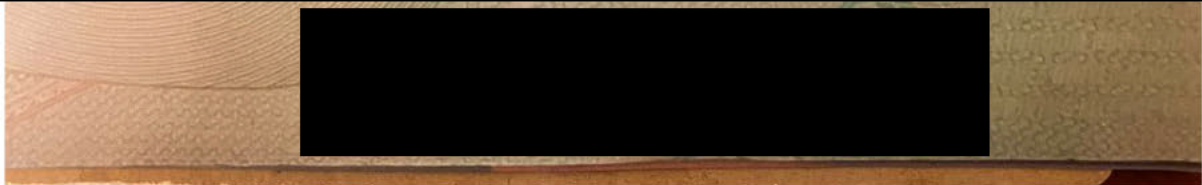

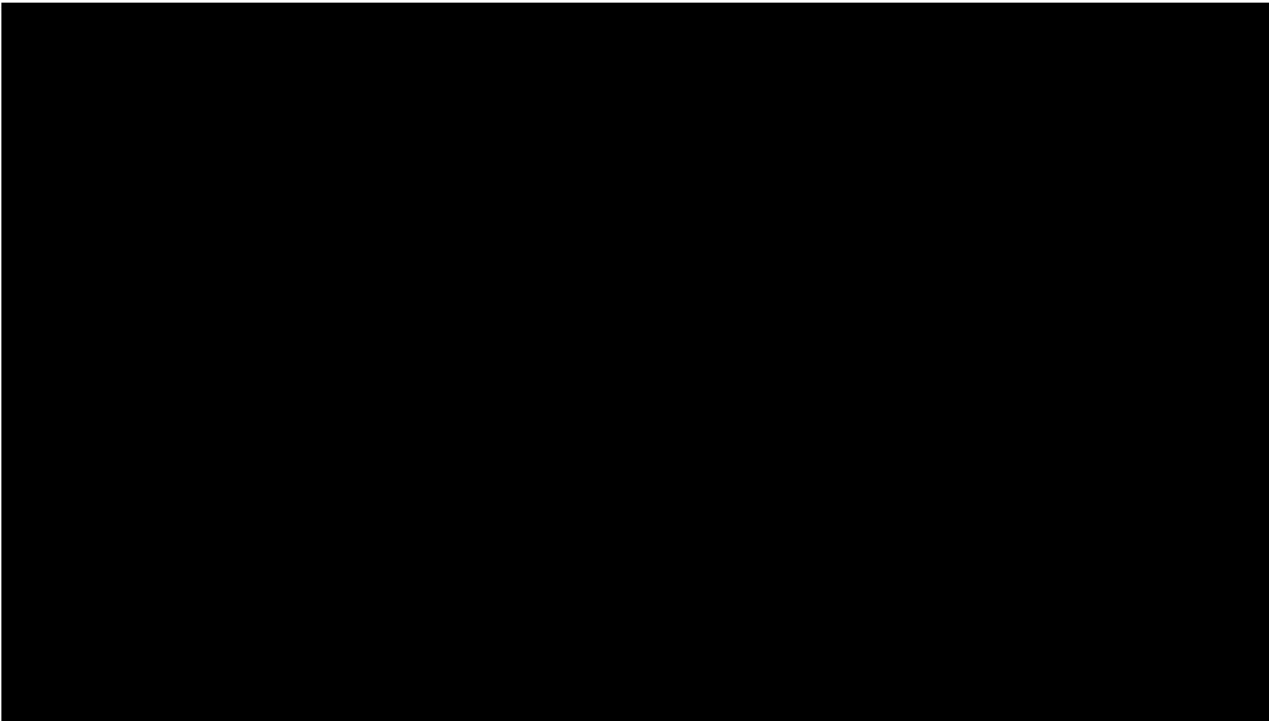

Should you require any further information or clarification regarding this incident, please do not hesitate to contact me.

Thank you for your attention to this matter.

Sincerely,

Deborah Gomes  
General Manager  
McGettigan's Pub  
1 Fulham Broadway

Deborah Gomes

Sir/Madam

I am writing to inform you about an incident that occurred during my private birthday party on September 1, 2024.

During the event, my mother, who suffers from seizures and has high blood pressure, experienced a seizure. In response to her medical condition, our primary focus was to ensure her safety and call for an ambulance as quickly as possible.

My brother, who was unaware of the specifics of her condition, was understandably upset when he was not allowed to approach her during the seizure. Despite his concern, our main priority was to manage the emergency situation effectively and ensure that my mother received the necessary medical attention.

Also the security helped every step of the way to ensure my Mother was ok, they did first aid and put her in recovery too.

I appreciate your understanding and support in this matter.

Best regards,

[REDACTED]
