Reasons for comment:

Comments:	13/06/2025 7:36 AM As residence we already have broken sleep from a combination of gangs doing deals off the main arterial routes, drug takers using and creating disturbances, antisocial behaviour and fouling the pavements, on top of which we then have drunken, loud and antisocial behaviour whenever there is the fun fair on the Green, the Carnival or hot weather in general due to the lacks licensing hours and lack of policing resource. Outside of winter, it is unusual for us to have sleep unbroken by noise and disturbance, this is especially difficult for our teenage children at school. This application would further add to what is an increasingly intolerable experience as a resident.

Comments:	<p>13/06/2025 8:29 AM I object to this application on the grounds that Shepherd's Bush Green area is already short of resources (police and local authority) to handle the negative externalities of licensed premises.</p> <p>The police have directly told me they will not continue to investigate and pursue some crimes so they can focus on the most serious issues in the area. From experience over recent years, any extension to licensing hours (morning and after midnight) will result in greater public unrest, noise nuisance and ASB that cannot be policed and that local residents do not want.</p>

Reasons for
comment:

Comments: 13/06/2025 8:34 AM The area around SBG is already an area of high antisocial behaviour that impacts the wellbeing and residential amenity of the local residents.

Increasing licensing hours to 3am over the weekend will only increase the additional ASB across the area and neighbouring streets. This involves street urination, taxis using Caxton Village as a pick up station, fast food waste being deposited on streets in Caxton Village, and more associated behaviours.

Unless there is a area wide strategy to manage the increase issues with bars / fast food establishments that operate both in daytime and now these extended hours that are being requested, the area will continue to loose its appeal as a residential or investment area.

Reasons for comment:

Comments:	13/06/2025 10:23 AM There can be no good outcome for our area if alcohol is served before 11am, and there should be no need to extend the hours or allow 14-16 year old children in the pub in the evening. My 12 year old niece had to walk past a victim of assault covered in blood outside this pub in the middle of the afternoon only two weeks ago - they already have inadequate security and the anti-social behaviour in our area will be severely affected by these variations.

Reasons for comment:

Comments: 25/06/2025 3:34 PM Please, please do not allow this. This area has become plagued by crime, antisocial behaviour, drunks, drug addiction, drug dealing, vandalism, litter and noise. The police and LET teams are doing their best to stop all thi, but extending this pub's hours into the night and early hours of the morning is only going to make this worse.

This proposed change is the last thing that should happen. The council is aware of the problems on Uxbridge Road and the feeling of residents about it. Please do not allow this change of licence.

Kind regards

Representation Against Licensing Variation Application

To Whom It May Concern,

Re: Representation Opposing the Licensing Variation Application 2025/00909/LAPR

I am writing to formally object to the proposed variation to the premises licence, which seeks to extend operating and licensable hours and amend/remove certain licensing conditions. As a local resident/member of the community, I believe the proposed changes would have a significant and negative impact on public nuisance, public safety, and the protection of children from harm—three of the four licensing objectives outlined in the Licensing Act 2003.

1. Prevention of Public Nuisance

Extending the terminal hour for licensable activities until 01:00 Sunday to Thursday and 03:00 Friday and Saturday, along with corresponding late-night refreshment and recorded music provisions, would greatly increase the likelihood of:

- Noise disturbance into the early hours, especially affecting families and elderly residents in the surrounding area.
- Anti-social behaviour, particularly from intoxicated patrons leaving the premises late at night or in the early morning.
- Disruption to sleep patterns and increased public complaints, particularly on weekends and nights preceding workdays.

The current terminal hours are already generous, and extending them to such late times would create an unnecessary and excessive burden on local residents.

2. Prevention of Crime and Disorder

Late night openings and extended alcohol sale hours often correlate with a rise in alcohol-related disorder and antisocial behaviour. Removing condition 23—which currently prohibits new customer admission after midnight—would likely:

- Increase the influx of late-night drinkers, including those turned away from other venues.
- Reduce the ability of staff to manage crowds and monitor patron behaviour effectively.
- Increase the risk of disorder both within and immediately outside the premises.

Additionally, removing condition 19, which restricts alcohol sales before 11am on Saturdays when QPR plays at home, is extremely concerning. This condition is clearly designed to mitigate risk of football-related disturbances. Its removal could encourage early drinking on match days and contribute to heightened disorder around the stadium area.

3. Protection of Children from Harm

The proposal to amend condition 14 to allow children under 16 on the premises until 10pm daily (currently 7pm) is highly questionable, especially in a venue serving alcohol

late into the night. The extended presence of children in an adult drinking environment, particularly on weekends, raises safeguarding concerns and undermines efforts to protect minors from exposure to alcohol consumption and late-night adult behaviour.

4. Public Safety

Extended hours for alcohol service and entertainment will place additional strain on emergency services, including police and ambulances, especially during peak weekend hours. Increased alcohol consumption often correlates with heightened safety risks, both for patrons and members of the public.

Conclusion

For the reasons outlined above, I strongly oppose this application to vary the licence. It poses a significant risk to the wellbeing, safety, and quality of life of local residents and undermines the licensing objectives. I respectfully request that the licensing committee refuse the application in full, or at the very least, retain the existing conditions that act as safeguards for the community.

Yours sincerely,

Subject: Representation Against Licensing Variation Application

To Whom It May Concern,

Re: Representation Opposing the Licensing Variation Application

I would like to add my name to the no doubt many others who object to the proposed variation to the premises licence (extending operating and licensable hours, amend existing conditions) for The Green, 172-174 Uxbridge Road, London W12 7JP.

I am a resident near to that address, and a licence like that would not be good for the area. There are MANY existing issues which we are trying to overcome, and a licence like that will just put the work done by others back. The area suffers with many incidents of public nuisance and disorder, never mind the ongoing issues with drug use which we have been battling to overcome with help from the Police and ongoing work from the council. A licence like this will not assist the neighbourhood, residents are not wanting a pub open later. It will certainly not assist the area, and I strongly opposed this arrangement as I did for many other times, notably the extension of permission of McDonalds in Shepherds Bush Green. I know there were many people that objected that idea, but it was allowed. The resulting "security" at the doors of McDonalds isn't improving anything. Not allowing them the licence would have worked better.

Now, with this case, PLEASE resist the urge to allow the amendment. Quite apart from increasing the use of alcohol which won't help the area, the noise it will cause will not assist anyone. Local residents are battling ongoing issues with local drug addicts who are taking over abandoned property, and the addition of intoxication will not be helping anyone.

It is not beneficial to the area to have intoxicated people causing whatever issues. The area lost a police station, and is supposedly trying to improve itself with Westfield (well done for allowing a "late night" theatre, for people to drink and cause issues in Westfield). The addition of the pub with this will NOT be beneficial to the area.

Sort the ongoing issues FIRST. Then, when it's settled, maybe. But now will no help, it's worthless for all.

McDonald's was allowed their later opening, and now has security watching them from earlier in the day, so will the pub have extra security too? And if so, doesn't that show it's a bad idea? It was allowed, given a licence. Use that, there will be multiple reports of crime linked to McDonald's, use that info to realise a licence for a pub for more hours is a terrible idea and should NOT be granted.

I know many other residents are not keen on this plan. I'm sure they're objecting too. Pay attention to the concerns. For once, it will help YOUR council work if the area

improves. Which is highly unlikely with the addition of late licences for pubs (and the theatre in Westfield, or the local McDonald's). Think if it improves the area at all. Pay some attention to residents and their concerns.

To whom it may concern:

Re: Representation Opposing the Licensing Variation Application

I am writing to formally object to the proposed variation to the premises licence, which seeks to extend operating and licensable hours and amend/remove certain licensing conditions. As a local resident/member of the community, I believe the proposed changes would have a significant and negative impact on public nuisance, public safety, and the protection of children from harm—three of the four licensing objectives outlined in the Licensing Act 2003.

1. Prevention of Public Nuisance

Extending the terminal hour for licensable activities until 01:00 Sunday to Thursday and 03:00 Friday and Saturday, along with corresponding late-night refreshment and recorded music provisions, would greatly increase the likelihood of:

- Noise disturbance into the early hours, especially affecting families and elderly residents in the surrounding area.
- Anti-social behaviour, particularly from intoxicated patrons leaving the premises late at night or in the early morning.
- Disruption to sleep patterns and increased public complaints, particularly on weekends and nights preceding workdays. The application also makes the assumption that local residents are in a standard Monday to Friday work pattern, this is very unlikely and all residents need to be considered fairly and equally.
- The current terminal hours are already generous, and extending them to such late times would create an unnecessary and excessive burden on local residents.

2. Prevention of Crime and Disorder

Late night openings and extended alcohol sale hours often correlate with a rise in alcohol-related disorder and antisocial behaviour. Removing condition 23—which currently prohibits new customer admission after midnight—would likely:

- As the publicly available crime statistics and the work the community has done with the Police and Council will evidence Shepherds Bush has in recent years become both a crime and anti-social behaviour hotspot. Extending the hours of activities and venues that contribute to this will only exacerbate an existing issue.
- Increase the influx of late-night drinkers, including those turned away from other venues.

- Reduce the ability of staff to manage crowds and monitor patron behaviour effectively.
- Increase the risk of disorder both within and immediately outside the premises.
- Additionally, removing condition 19, which restricts alcohol sales before 11am on Saturdays when QPR plays at home, is extremely concerning. This condition is clearly designed to mitigate risk of football-related disturbances. Its removal could encourage early drinking on match days and contribute to heightened disorder around the stadium area.

3. Protection of Children from Harm

The proposal to amend condition 14 to allow children under 16 on the premises until 10pm daily (currently 7pm) is highly questionable, especially in a venue serving alcohol late into the night. The extended presence of children in an adult drinking environment, particularly on weekends, raises safeguarding concerns and undermines efforts to protect minors from exposure to alcohol consumption and late-night adult behaviour.

4. Public Safety

Extended hours for alcohol service and entertainment will place additional strain on emergency services, including police and ambulances, especially during peak weekend hours. Increased alcohol consumption often correlates with heightened safety risks, both for patrons and members of the public.

Conclusion

For the reasons outlined above, I strongly oppose this application to vary the licence. It poses a significant risk to the wellbeing, safety, and quality of life of local residents and undermines the licensing objectives. I respectfully request that the licensing committee refuse the application in full, or at the very least, retain the existing conditions that act as safeguards for the community.

Comments:	01/07/2025 8:11 AM The pub already plays music late at night past hours so loud that it can be heard throughout the building. When they play music sometimes the whole building shakes and they are a very disruptive neighbour in this regard. We absolutely object to the proposal as this would only prolong the amount of time that they are able to do this

Reasons for comment:

Comments:	03/07/2025 8:23 AM I strongly object to this idea. There is already a significant amount of crime and anti-social behaviour in the area, which this is likely to increase. It is also a public safety issue, being on a busy junction for cars and pedestrians at all times of the day.

Reasons for
comment:

Comments: 03/07/2025 9:23 AM I object to opening hours increasing into the night.

We have major problems with crime and ASB in this area. The council, police and LET know this.

More free access to alcohol will be very unhelpful.

I object on the following grounds:

1. Increase in crime and anti-social behaviour
2. Public safety
3. Prevention of public nuisance

Kind regards

Subject: Strong Objection to Licensing Application 2025/00909/LAPR - The Green Pub, Uxbridge Road / Wood Lane

Dear Sir/Madam,

I am writing to formally and strongly object to the application from The Green Pub, located at the critical junction of Uxbridge Road and Wood Lane, to extend its opening hours to 03:00 in the morning (Application Ref: 2025/00909/LAPR).

This application comes at a time when residents and the police are actively working to tackle deep-seated issues in our area. Granting this licence would not only be irresponsible but would actively undermine these efforts and worsen the existing problems. My objection is based on the following licensing objectives:

1. The Prevention of Crime and Disorder

Shepherd's Bush, and this section of Uxbridge Road in particular, is already a well-documented hotspot for crime and antisocial behaviour (ASB).

Existing High Crime Levels: Police statistics for the Shepherd's Bush Green ward are alarming. The area already suffers from a "High" crime level, with ASB. Crucially, the Metropolitan Police have themselves identified "ASB - Drugs," "Violent Offences," and "Robbery" as key policing priorities for our neighbourhood. To allow any establishment to discharge patrons onto the street at 3 am in this context is to knowingly create conditions that will exacerbate these exact issues.

Overwhelming Resident Concerns: As recently as May 2025, nearly 2,200 residents signed a petition submitted to the council, highlighting the decline of Uxbridge Road. The petition explicitly states that "crime and anti-social behaviour thrive in neglected environments" and that residents "don't feel safe" due to loitering, intimidation, and visible drug use. The council and police are aware of this groundswell of local concern. This application flies in the face of our community's plea for a safer environment.

Undermining Police and Council Efforts: Approving this extension would directly contradict the significant investments being made to clean up the area, including enhanced Law Enforcement patrols and a new CCTV network. It makes no sense to invest in tackling crime on one hand while simultaneously creating a new catalyst for late-night crime and disorder with the other.

2. Prevention of Public Nuisance

Noise in a Regulated Area: The area is already subject to a Public Spaces Protection Order (PSPO) which, among other things, restricts amplified noise. This demonstrates that noise is already a recognised and serious issue. The inevitable noise generated by dozens of people leaving a pub at 3 am—shouting for taxis, arguing, and slamming car doors—is a significant nuisance that will shatter the peace of a residential area and is completely unacceptable.

* Increased Mess and Blight: The residents' petition already cites problems with the local streetscape feeling "derelict" and "neglected." An increase in late-night footfall will

inevitably lead to more litter, from takeaway food containers to cigarette butts, further contributing to the degradation of the area we are trying so hard to reverse.

3. Public Safety

The pub sits on a major, busy junction. The dispersal of potentially intoxicated individuals at 3 am, when public transport options are minimal, creates a clear danger. It increases the risk of traffic accidents and makes people vulnerable. In an area where robbery and violence are already police priorities, we must not create a situation that makes residents and visitors an easier target for crime in the early hours of the morning.

In summary, this application is not for a quiet residential street, but for a known crime hotspot where the community is actively petitioning for help. Approving a 3 am licence for this venue would show a disregard for the safety and wellbeing of residents, undermine the work of the police, and sabotage the community-led effort to make Shepherd's Bush a safer place to live.

I therefore urge the licensing committee in the strongest possible terms to listen to the residents and the evidence, and to reject this application.

Kind regards,

33 Abdale Road
London
W12 7ER

Reasons for comment:

Comments: 03/07/2025 1:27 PM It's incomprehensible that this is even being considered when we have a huge problem with ASB in the area and constantly being told there is a lack of police to enforce laws.

A late night licence will just exacerbate the problems we see during the day and early evening from intimidating groups of men hanging around to open drug using. There is no benefit to the community whatsoever to have this licence granted and it only plays into the hands of individuals and groups who already see Shepherds Bush as an easy target to get away with illegal activities.

Please focus on getting the ASB in the area down not up.

Subject: 2025/00909/LAPR objection

I am writing to you as I am getting an error message when I try to submit comment on the website

please see attached screenshot for error message:

I am part of a local neighbourhood whatsapp group and there are a number of people who have run into the same problem. They have emailed you to complain and have not received a reply. Please fix it asap.

In the meantime I am writing to you objecting to this application:

Application Reference:	2025/00909/LAPR
Address:	172 - 174 Uxbridge Road London W12 7JP
Licence Category:	Licensing Act - Premises Licence
Application Type:	Variation

I strongly object to this application. As a local resident already concerned with the many documented issues of crime and antisocial behaviour at this end of the Uxbridge Road including Frithville Gardens and Stanlake Rd, I believe granting this application will lead to an increase in these existing area problems and run counter to the Councils claims that they are trying to address these problems.

<https://nextdoor.co.uk/agency-post/england/london/hammersmith-council/improving-uxbridge-road-17592237039132/>

I believe the application should be rejected on the grounds of public nuisance, public safety, and the protection of children from harm—three of the four licensing objectives outlined in the Licensing Act 2003.

1. Prevention of Public Nuisance

Extending the terminal hour for licensable activities until 01:00 Sunday to Thursday and 03:00 Friday and Saturday, along with corresponding late-night refreshment and recorded music provisions, would greatly increase the likelihood of:

Noise disturbance into the early hours, especially affecting families and elderly residents in the surrounding area.

Anti-social behaviour, particularly from intoxicated patrons leaving the premises late at night or in the early morning.

Disruption to sleep patterns and increased public complaints, particularly on weekends and nights preceding workdays.

The current terminal hours are already generous, and extending them to such late times would create an unnecessary and excessive burden on local residents.

2. Prevention of Crime and Disorder

Late night openings and extended alcohol sale hours often correlate with a rise in alcohol-related disorder and antisocial behaviour. Removing condition 23—which currently prohibits new customer admission after midnight—would likely:

Increase the influx of late-night drinkers, including those turned away from other venues.

Reduce the ability of staff to manage crowds and monitor patron behaviour effectively.

Increase the risk of disorder both within and immediately outside the premises.

Additionally, removing condition 19, which restricts alcohol sales before 11am on Saturdays when QPR plays at home, is extremely concerning. This condition is clearly designed to mitigate risk of football-related disturbances. Its removal could encourage early drinking on match days and contribute to heightened disorder around the stadium area.

3. Protection of Children from Harm

The proposal to amend condition 14 to allow children under 16 on the premises until 10pm daily (currently 7pm) is highly questionable, especially in a venue serving alcohol late into the night. The extended presence of children in an adult drinking environment, particularly on weekends, raises safeguarding concerns and undermines efforts to protect minors from exposure to alcohol consumption and late-night adult behaviour.

4. Public Safety

Extended hours for alcohol service and entertainment will place additional strain on emergency services, including police and ambulances, especially during peak weekend hours. they are already stretched as it is.

Improving Uxbridge Road

Hammersmith & Fulham Council from Hammersmith & Fulham Council · 27 May

Thank you to everyone who is working with us to improve Uxbridge Road.

We're removing defunct phone boxes. We're paying for businesses to have their shutters painted by a local artist. We're implementing deep cleaning of the entire road. We're going to revamp our waste collections so there are fewer rubbish and recycling bags on pavements. And we'll work with shopkeepers to make the area a Business Improvement District to enhance the environment and local services.

We're also giving the Met Police unprecedented support to tackle crime and anti-social behaviour in the area. And in return, we need the Met to step up and take real action to make residents feel safer.

As a council, we now have the largest Community Safety team in London. Officers from our unique Law Enforcement Team are making 33 patrols of Uxbridge Road every 24 hours and we will be stepping up these patrols alongside the Met. We are also investing an extra £4.5million in our ground-breaking high-tech CCTV network so we're able to share incidents in real time with police officers.

There's still more we can all do. We need help from residents and businesses. We know many of you report crime to the Met. But the more residents do, the better. By arming police with more intelligence, we will enable them to better deter, prevent and fight crime.

We are determined to work with local residents and businesses to make Uxbridge Road an even better place to live, work and socialise.

👉 Council actions

We have created a special new team across the key council services to detail current and future improvements.

Here are the main issues we're addressing in Uxbridge Road:

- Anti-social behaviour
- Improving shop shutters and frontages
- Street cleaning
- Graffiti/flyposter removal
- Waste and flytipping
- Street furniture and improving the pavements

👉 Anti-social behaviour

Officers from our unique Law Enforcement Team are currently conducting an average of 2,400 patrols each year. This is 7 patrols every 24 hours in Uxbridge Road. Their work also focuses on several side roads off Uxbridge Road. If these are included, then there are 12,370 patrols – or 33 patrols every 24 hours. Our Law Enforcement Team also works closely with the Met Police and our CCTV team to tackle crime and disorder. The team is unique – no other borough has invested more to tackle crime than Hammersmith & Fulham.

👉 Contact our Law Enforcement Team (LET)

Our 72-strong Law Enforcement Team seeks to reduce crime and anti-social behaviour to help keep H&F's residents and visitors safe.

Email let.hf@lbhf.gov.uk 24/7 or call our Cleaner Greener hotline on 020 8753 1100 and select Option #3 to speak to the LET.

The hotline is open from Monday to Friday between 9am and 5pm.

👉 Investment in crime and safety

Our latest budget funds the fight against crime and anti-social behaviour locally – with £12.3million of extra funding for services, including:

- £2.1million for our local Law Enforcement Team, a service unique to this borough who patrol the streets to keep them safe and clean.
- £1million for our innovative Gangs Unit, which prevents young people falling into a life of crime, and chokes off organised crime at the roots.
- £250,000 of new funding to prevent violence against women and girls, after we became the first council in the country to impose a borough-wide ban on street harassment.
- An extra £4.5million to grow our CCTV network, with more cameras per person than anywhere in the country.

👉 Shopfront improvements

We have recently paid for two long-standing and popular businesses in Uxbridge Road to have new artwork painted onto their shutters – Naama and Nut Case. You can see the results here: [New shutter artwork in Uxbridge Road](#). We are now asking other businesses if they want to take part at no cost. Decorating shutters with art aims to soften the urban environment in a simple yet impactful way, making it feel more welcoming and less intimidating, and is recognised for its ability to improve sense of safety at night. The design was a collaborative effort between an appointed local artist and the shop's owner, with the final design reflecting the food or products offered in the store. Last winter, we commissioned Jan Kattein Architects to complete a photo analysis of shopfronts on both Uxbridge and Goldhawk Roads. Their report has provided us with a range of possible options and interventions to help uplift the appearance of the high street with estimated costs.

Jan Kattein Architects have delivered shopfront improvements in both Deptford and Leyton, and we are currently considering options for funding this project.

👉 Removing phone boxes

We have lobbied the owner/operator of the phone boxes to remove as many phone boxes as possible. They are now proposing to remove 8 phone boxes (with 2 new/replacements to be provided).

👉 Deep cleaning of streets

Our contractors will undertake a deep wash – including the removal of chewing gum – in Uxbridge Road starting this month. Some sections of the pavement will need to be closed and/or completed overnight to get the best results.

👉 Graffiti and flyposters

Since April 1, our contractors have removed:

- 96 graffiti tags
- 68 flyposters

Unfortunately, the law requires us to gain prior approval before graffiti can be removed from private property.

Resident can report any graffiti or flyposting at www.lbhf.gov.uk/report-it

Recently, our LET officers identified 8 shops with graffiti and the paint was removed.

👉 Waste and flytipping

We will soon be consulting residents on timed waste collections in Uxbridge Road. These new time slots will set out when waste can be placed on the pavement for collection. This will make it easier for the LET to enforce flytipping and waste/recycling being left out on the pavements at the wrong time. We expect this will make the streets look cleaner and smarter.

👉 Decluttering street furniture

We started a survey on May 12 to identify every element of street furniture along Uxbridge Road. This includes signs, lampposts, bollards, cycle parking hoops etc.

We will then work to remove unnecessary items or relocate them to more appropriate locations. The aim is to provide a less cluttered, cleaner and smarter looking street.

👉 Painting street furniture

The remaining street furniture will be painted to provide a refresh. This will include all remaining posts and bollards, as well as lampposts.

We hope this reassures you that we are working hard to keep Uxbridge Road – and all our local high streets – as inviting, attractive and safe places to life, work and socialise.

Reasons for comment:

Comments:	07/07/2025 6:43 PM There is no reason for a pub to stay open in a local area which is not set up for extra late night opening - it is not in central London/Soho. Shepherds Bush Green is already a hot spot for public nuisance and crime, and a pub staying open until 3am will only add to this. Who is going to pay for extra police patrol to ensure there is not an increase in criminal activity due to 3am opening? While I am all for supporting pubs in the area, and would much prefer to see more pubs opening than another chicken shop or arab supermarket, this will only lead to an increase in late night/early morning noise for the residents who live nearby.

Reasons for comment:

Comments:	07/07/2025 6:58 PM I object to the pub staying open until 3am. No other venues in the area are open that late. Having a pub stay open until 3am in a local area will lead to higher crime and antisocial behaviour, it could potentially endanger public safety as it is on a busy intersection, and it will likely lead to an increase in public nuisance in an area which is already prone to antisocial behaviour. There is no need for a pub to stay open until 3am.

Subject: Re: Formal Objection to License Variation Application, 2025/00909/LAPR – The Green pub, W12 7JP

Hi Matt,

Thank you very much for your response.

I can indeed provide my full address, which is:
Flat 1, 172-174 Uxbridge Rd, Shepherd's Bush, London W12 7JP

Thank you for providing the additional details. It would be good to hear if the pub would find ways to alleviate our concerns regarding the noise and the bass vibrations which causes shaking to the building.

Just to note that the pub had previously agreed to do work to address this, but it was insufficient.

In the meantime, I have cc'd in those who live in the building, so that they know to contact Environmental Protection and the Police should we experience noise or anti-social behaviour from the pub.

Kind regards,

[REDACTED]

On Tue, Jul 8, 2025 at 10:13 AM Tucker Matt: H&F <Matt.Tucker@lbhf.gov.uk> wrote:
Dear [REDACTED] – thank you for your e-mail and I hope you are keeping well.

Having read your comments (below), I would like to respond to a few of the points that have been made:

- For us to consider your comments as a valid representation, you need to specify to us your full address. If you can supply that to me by midnight on 10 July 2025, I can count this as a valid representation.
- The role of the Licensing Sub-Committee is to decide whether the proposed variation should be granted (either in full or in part) or not at all. Any recent licensing compliance and enforcement issues reported to us, as a Licensing Team, will always be shown in the report accompanying the Hearing. However, our colleagues in Environmental Protection are what we call Responsible Authorities who are always consulted on applications such as this. Also, they

would take into account any previous issues reported to them before deciding whether to object or not. In this case, Environmental Protection have are currently in discussions with the Applicant (details of which I should be able to pass to all parties soon) which may alleviate some of the concerns raised by objectors. If we can fully validate your representation (above), you will be passed this information and, along with any other objectors, asked if this mitigates your concerns to the extent you wish to withdraw your objection.

- You have referred to the Licensing Sub-Committee '*[enforcing] existing license conditions before considering any extensions*'. If there are still ongoing issues with noise or anti-social behaviour from the premises, both our colleagues in Environmental Protection (<https://www.lbhf.gov.uk/environment/noise-and-nuisance>) and the Police would always advise you to report this to them so that they can take action. Any potential breaches of a premises licence (not related to noise) would be a matter for our Licensing Enforcement Team (Licensing@lbhf.gov.uk) to deal with. The Sub-Committee has no specific powers to force a premises to comply to any conditions as part of a Hearing, but will consider any evidence that is provided to them from residents, as well as Responsible Authorities. We normally issue a report capturing any relevant information like this around 10 days before the Hearing is due to take place, but it is not uncommon for us to issue any relevant updates in advance of the Hearing.

I hope this clarifies and I look forward to you confirming your residential address. Please let me know if you have any further queries and I am more than happy to arrange a call if that is easier for you.

Kind regards

Subject: Formal Objection to License Variation Application, 2025/00909/LAPR – The Green pub, W12 7JP

You don't often get email from [REDACTED] [Learn why this is important](#)

Dear Licensing Officer,

I am writing to formally object to the application by The Green pub to extend their licensed hours for playing music until 1am (Sunday to Thursday) and 3am (Friday and Saturday). I live directly above the premises and am seriously concerned about the negative impact this will have on residents, given the existing noise disturbances and breaches of their current license conditions.

Grounds for Objection

My objection is based on the following points, which relate to the four licensing objectives under the Licensing Act 2003, specifically:

1. Prevention of Public Nuisance
 - The pub already plays music beyond their current licensed hours, and the bass vibrations shake the building, making it impossible to sleep.
 - Noise from amplified music is clearly audible inside my flat, even with windows closed, which is a breach of their existing license conditions.
 - Extending these hours will worsen the disturbance, affecting the health and well-being of residents.
2. Protection of Children and Vulnerable Persons from Harm
 - Late-night noise disrupts sleep, which can negatively impact children, elderly residents, and those who work early hours.
3. Existing Non-Compliance
 - The fact that the pub already plays music past their permitted hours demonstrates a disregard for licensing conditions. Granting an extension would reward this behaviour and set a concerning precedent.

Evidence of Disruption

- I have previously contacted LBHF to record instances where music has been played beyond the current permitted hours. The reference to this is [REDACTED].
- The attending Noise Complaint officer found that the bass and vibrations from loud music cause structural disturbance, making it difficult to rest.
- Other residents in the building have also expressed concerns, and I would be happy to gather evidence of this, if needed.

Request for Action

I urge the licensing committee to:

- Reject the application for extended hours due to the pub's history of non-compliance.
- Enforce existing license conditions before considering any extensions.
- Request a noise impact assessment to evaluate how extended hours would affect residents.

I would appreciate being kept informed of any hearings or decisions regarding this application and would be willing to provide further evidence if required.

Yours sincerely,

[REDACTED]

Reasons for comment:

Comments:	09/07/2025 7:55 PM Met Police have listed the 30 london anti social behaviour hot spots - which includes Shepherds Bush Green. Late night opening to 3am and to 1am the rest of the week will exacerbate this issue. The area around Shepherds Bush Green, the Market underground station and Frithville Road attracts drug dealing, rubbish, anti social behaviour. The Green is right in the center of this area.

Reasons for comment:

Comments:	10/07/2025 7:42 PM Doing this will increase issues in an area with a lot of problems already: 1. Increase in crime and anti social behaviour 2. Public safety 3. Public nuisance Please think about the area and the neighbours in an already challenging situation! This will just increase our problems.

Reasons for comment:

Comments: 08/06/2025 2:04 PM We wish to object most strongly against this 3am licencing and the sale of alcohol from these premises. Hammersmith Broadway area already has a big problem with street drinking and anti-social behaviour. This will invite more unwanted drinkers to this premise regardless if there are only takeaways after 1am. They are stating that there would be alcohol served on and off the premises. This is a very small premise and the spilling out on to the street of more drinkers and people hanging about in the early hours should be resisted. There is nothing to indicate how this will be supervised and customers could bring their own drinks and sit outside until 3am. The proximity of residential premises above and on the adjoining side streets means that local residents will be disturbed yet again late at night and early morning with more noise from yet another late night drinking venue. Please decline this request.

Subject: RE: Licensing Act 2003 - Reference: 2025/00909/LAPR

Dear Licensing Team

I am writing regarding the application for variation to the premises licence for Reference 2025/00909LAPR

I would like to make the following observations and raise concerns regarding the proposed changes.

Extension of Terminal Hours

The proposal to extend terminal hours to 0100hrs to Sunday – Thursday and 300hrs Friday and Saturday raises potential concerns about public nuisance, particularly in terms of noise, anti-social behaviour, and dispersal of patrons at night in the surrounding area.

I would ask that a comprehensive noise management plan, additional security measures and a clear dispersal policy be considered if such an extension is granted.

Removal of Condition 19 – Alcohol not to be served before 11 am on Saturday before QPR play at home.

This condition was likely put in place to manage risks associated with football match days, including crowd behaviour, public disorder and early alcohol consumption. Its removal should only be considered, as match days can still pose significant management challenges. I do expect input from local police and safety on this.

Removal of Condition 23 – No new admissions after midnight.

This condition is important tool for managing late night disturbances. Removing it may lead to increased footfall late at night, which could impact on our residents. I would suggest alternative measures, such as a Door Supervision Plan or last entry at 01:00 hrs to reduce impact.

Condition 14 regarding children on the premises.

Children under 16 years of age shall not be allowed on the premises after 10pm daily.

What happens with children always accompanied by a responsible adult on family evening meals at weekends.

I request that we carefully consider these changes.

Kind regards

Subject: RE: Licensing Act 2003 - Reference: 2025/00909/LAPR

Dear Tucker

After having read all emails, I am writing on behalf of residents of Shepherd's Bush to formally object to the proposed Remove conditions 19 which read as follows:

19. Alcohol shall not be served before 11am on Saturdays when QPR play at home. We strongly oppose the removal of this condition for the following reasons.

Public Safety and Disorder: QPR home matches attract large crowds and earlier access to alcohol will increase the risk of anti-social behaviour, noise disturbance and public

disorder in our neighbourhood. This condition was likely introduced for good reason and should remain in place.

Protection of Residents: Many residents live proximity to the pub. Removing this condition would exacerbate already difficult which Uxbridge Road is facing, including public drunkenness, urination, shouting and general disruption. Families and elderly residents will be more affected.

There is no evidence that removing this condition will benefit our residents. In fact, it will contribute to a more hostile environment on matchdays. I am requesting that Condition 19 is retained, for the interest of preserving public order, safety and quality of life for the residents Shepherd's Bush.

Would welcome views on the Extension of Terminal Hours.

Kind regards

Subject: Representation in Support of Licensing Variation Application

To Whom It May Concern,

Re: Support for the Licensing Variation Application by The Green Shepherd's Bush

I am writing as an interested person under the Licensing Act 2003 to express my support for the proposed variation to the premises licence for The Green Shepherd's Bush. I currently work in Shepherd's Bush and have previously lived in the area for several years. I continue to have strong ties to the community and travel through the neighbourhood regularly. While I understand that some neighbours have raised concerns, I believe the proposed changes would bring positive benefits to the area and reflect the evolving needs of the local community. As someone who understands the dynamics of the neighbourhood, I feel it's important to present a balanced view.

1. Local Crime Data Shows No Evidence Linking Disorder to Licensed Premises

The objection to the licence variation focuses heavily on the assumption that later hours will lead to increased crime and antisocial behaviour. However, Metropolitan Police data for Shepherd's Bush Green shows that:

Violence & sexual offences, shoplifting, and theft from the person are the most reported crimes.

The main crime hotspots are transport hubs such as Shepherd's Bush tube stations and Westfield shopping centre.

There is no recorded evidence linking The Green Shepherd's Bush to any public disorder or police callouts in the past year.

A visual chart (Figure 1) based on the March 2025 data clearly shows that crime in the area is urban in nature and not associated with the operation of local pubs.

> Figure 1: Top Crime Categories in Shepherd's Bush Green (March 2025) (Chart included in PDF version)

2. The Area Lacks Late-Night Venues Despite Local Demand

Among the five closest pubs to The Green:

Only two (The Central Bar and The Green) open as late as 01:00 on weekends.

Most others close between 11:00 PM and midnight, even on Friday and Saturday nights.

There is currently no venue in the immediate area open until 03:00. This creates a clear gap in the local night-time economy.

Residents who want a late evening out must travel into central London, often by night bus or tube. This not only increases their travel time and financial costs, but also exposes them to greater risk of crime and harassment in unfamiliar environments. Extending the hours at The Green would help address this issue in a sensible and community-focused way.

3. Keeping It Local Improves Safety and Community Wellbeing

By providing a safe and familiar space for local patrons to continue socialising later into the evening, The Green can help reduce:

The need to travel to central London venues

Public transport-related exposure to crime and disorder

Night-time congregation around transport hubs

In this context, extended hours are not a threat to public safety—they are a mitigation strategy.

4. Responsible Licensing and Community Accountability

The Green Shepherd's Bush is a community-focused venue that has operated without complaints or disorder. The proposed variation is a natural next step in helping it serve the neighbourhood more fully. The management has shown willingness to comply with reasonable conditions and ensure staff and security are in place to support the extended hours.

Conclusion

The evidence suggests that the crime in Shepherd's Bush is not caused by pubs like The Green, and the demand for a safe, late-night local venue is real. Rather than undermining the licensing objectives, this variation supports them: by reducing late-

night travel, providing a supervised social space, and encouraging responsible alcohol consumption closer to home.

For these reasons, I urge the licensing committee to approve the variation.

Yours sincerely,

56 Hanger View Way

Subject: Notice of Support for The Green, Uxbridge Road

To Whom It May Concern,

I am writing to show my support for the Craft Union Pub Company in their application to extend the licence and opening hours of The Green, located at 172-174 Uxbridge Road, London, W12 7JP. I am a local resident in the area, and I frequent The Green as it is my favourite local watering hole. I have often gone there to meet friends and unwind after work, and I have had nothing but pleasant experiences and a good time.

I have never witnessed any security incidents or anti-social behaviour from any other patron during any of my numerous visits, and the staff at The Green have always been accommodating and professional. They provide a fun and safe recreational environment, and I very much look forward to seeing what they could further provide for the local community upon being granted the extended hours.

Please do let me know if you need any further comments, or any more information from me at this time, and please do take this correspondence to be my full-fledged support for The Green in their endeavour to expand and grow their business.

Kind Regards,

Subject: Representation in Support of Licensing Variation Application - The Green Shepherd's Bush

To Whom It May Concern,

Re: Support for the Licensing Variation Application by The Green Shepherd's Bush

I am writing as a local resident and interested person under the Licensing Act 2003 to express my support for the proposed variation to the premises licence for The Green Shepherd's Bush. As someone who both lives and works in Shepherd's Bush, I am invested in its continued development and vibrancy. I believe extending the venue's hours is not only reasonable but also essential to maintaining the area's appeal and character.

1. Licensed Venues Are Central to the Area's Identity and Economy

Shepherd's Bush has long been known for its lively atmosphere, cultural diversity, and entertainment offerings. The area's attractiveness is significantly supported by its pubs, bars, and restaurants, which give people a reason to visit, spend time, and return. Without them, Shepherd's Bush risks becoming saturated with fast food outlets and low-end retail shops, losing the vibrant evening economy that currently sets it apart.

The ability to offer a range of evening options — including responsibly managed venues like The Green — is vital to supporting the local economy, providing jobs, and attracting both residents and visitors.

2. Lack of Late-Night Options Drives People Away

Currently, most local venues close by 11 PM or midnight, even on weekends. This severely limits local options for people who want to continue their evening nearby. As a result:

People are forced to travel into central London, adding cost and risk.

Local businesses lose potential revenue.

The area becomes quieter and more vulnerable to decline after a certain hour.

By allowing The Green to extend its hours, the community retains spending power locally and supports a more vibrant, safer, and better-utilised neighbourhood during late hours.

3. Encouraging Responsible Nightlife Locally Is Safer

When managed correctly — as The Green has consistently demonstrated — later hours do not mean increased nuisance or crime. In fact, venues that attract a regular, respectful crowd contribute to public safety and social cohesion.

Having more licensed, well-run venues open later gives residents and visitors the option to stay local rather than take unnecessary risks with late-night transport, especially in an area already facing safety concerns at stations and bus stops.

4. The Green Operates to a High Standard

From what I've seen in my time living and working in the area, The Green maintains a high standard of behaviour and compliance. There is no record of the venue contributing to antisocial behaviour, and it is a well-integrated part of the neighbourhood.

The requested variation is a modest and proportionate one, and it aligns with the needs and aspirations of a modern, culturally active urban centre like Shepherd's Bush.

Conclusion

Shepherd's Bush should not become a place that closes down at midnight, only to be filled with fast food chains and discount shops. If we want the area to thrive, we must support its cultural and hospitality sectors.

I hope the committee recognises that supporting this application means supporting the identity and future of Shepherd's Bush.

Yours sincerely,

31 Uxbridge Road
London
W12 8LH

To: Licensing HF: H&F <licensing@lbhf.gov.uk>
Subject: Licensing Application

To Whom It May Concern,

Re: Support for the Licensing Variation Application by The Green Shepherd's Bush

I am writing as an interested person under the Licensing Act 2003 to express my support for the proposed variation to the premises licence for The Green Shepherd's Bush. I live in Holland Park and frequently visit Shepherd's Bush for shopping, dining, and evening entertainment. As someone who regularly spends time in the area and relies on its local amenities, I believe the proposed changes will benefit the wider community and support a more vibrant and accessible night-time economy.

1. Crime Patterns Do Not Justify Opposition to the Licence

Some objections assume that later operating hours will cause increased crime or antisocial behaviour. However, recent Metropolitan Police data shows:

The highest incidences of crime in Shepherd's Bush Green are linked to retail theft, public transport hubs, and general urban activity.

Violence, shoplifting, and theft from the person dominate the statistics.

There is no indication that The Green Shepherd's Bush contributes to or is associated with these issues.

As seen in the attached chart (Figure 1), the data makes it clear that local licensed venues are not the source of recorded public disorder.

2. Lack of Late-Night Options in the Area

Currently, the nearest pubs to The Green mostly close by midnight, even on weekends. Only one or two extend to 1:00 AM. There are no venues in the immediate area open until 3:00 AM.

As a Holland Park resident, I often visit Shepherd's Bush to socialise, particularly due to its central location and convenient transport links. The early closure of pubs frequently cuts nights short or pushes people to travel into central London, which can:

Increase reliance on night buses or long journeys home

Lead to greater exposure to crime and disorder on public transport

Discourage local socialising altogether

There is clearly a local demand for later options without the burden of unnecessary travel.

3. Supporting Local Nightlife Supports Safety

Having access to a safe and familiar venue like The Green that operates responsibly into later hours would reduce pressure on transport hubs and offer residents and visitors a more comfortable alternative to central London nightlife.

In this sense, rather than creating public nuisance, extended hours may actually support public safety by keeping people closer to home.

4. Proven Responsible Operation and Sensible Expansion

The Green Shepherd's Bush has operated without incident or public complaint. Its request to extend hours is proportionate, and the venue has demonstrated a willingness to comply with licensing conditions and good practice. As a local visitor and community member, I have always found it to be a well-run, friendly venue.

Conclusion

Crime data and local experience do not support the view that extended hours will create a public nuisance. Instead, enabling longer, well-regulated openings will serve community needs, reduce travel-related risks, and enhance the area's vibrancy.

As someone who uses the area regularly and recognises the demand for such spaces, I encourage the licensing authority to approve the variation and support the responsible growth of local hospitality.

Yours sincerely,
