Dear Matt,

Thank you for the update.

To confirm that my original objection(s) remain. Any extended operating hours will only lead to an increase the issues that I have previously raised and will greatly undermine the work in recent years of the Police, community, council and others to make the area safer than it presently is/has become.

Best wishes,

Dear Objector –

Following the close of the consultation for the above application, I have been asked by the Applicant to relay the attached letter to you.

I shall be sending out shortly details of a proposed Licensing Sub-Committee Hearing date for the item. However, should you find that the attached mitigates your concerns to the extent that you wish to withdraw your representation, please let me know by return e-mail.

Kind regards

Hi Matt,

Thank you for sharing this. However, I will be maintaining my objection. As an active member of the local neighbourhood group, I am well aware of the strong community opposition to this proposal. The area already faces significant issues with antisocial behaviour, and introducing this would only exacerbate the situation. Approving it would set a deeply concerning precedent and have a detrimental impact on the community.

Best,
[REDACTED]

Hello Matt

Thank for your email and sending through the letter from the licensee.

The small amendments being offered do not address the concerns I have regarding increased antisocial behaviour in an area already identified by the London Mayors office as one of the worst areas in London for anti social behaviour.

I totally against any extension in hours, we need to fix the issues we have now not pour fuel on the fire.

My original objections stand.

Regards

Hello Matt

No of course the attached does not change my position as the problem will still be the same. The police do not have the resources as we have been repeatedly told to quite literally police existing ASB issues let alone those that this extension will create for the local community. We have endured and continue to endure enough. Please let's resolve the current problems before creating a doorway for new ones.

Kind regards
