Stance:	Customer objects to the Licensing Application

Reasons for comment:

Comments: 13/11/2025 10:18 AM I wish to object to this premises licence application for the following reasons:

Prevention of crime and disorder

There are a number of public houses in Fulham High Street which discharge rowdy, drunken customers throughout the evening to late at night and this proposed Indian takeaway restaurant will be a magnet for them.

Public safety

This proposed Indian takeaway is sited directly in front of a zebra crossing and is on a corner where traffic from the Fulham Palace Road often turns at speed into the Fulham Road so there is a high risk to the public if the premises customers spill onto the pavement and obscure this traffic or the customers themselves spill onto the road. It is a particularly dangerous corner more especially since many drivers coming from Burlington Road to not turn left and use the roundabout to turn into the Fulham Road but rather make an illegal right turn across the zebra crossing - I have witnessed 3 very close calls in recent years will standing at the bus stop. This

site was an estate agency for many decades with minimal foot traffic.

Prevention of public nuisance

For the same reasons as the prevention of crime and disorder. When Kebab Kid (corner of Fulham Road and Oxberry Avenue) was granted a food outlet licence a few years ago local residents have witnessed gangs of motorcycle and scooter riders using the venue as a meeting place when it is open (it only operates infrequently) and many complaints have been made to H&F noise and environment services. When you add to this the fact that this proposed takeaway at 794 Fulham Road is sited on a corner by a zebra crossing and beside white zig zag no parking warning lines that operate 24/7 it is a recipe for disaster.

Kind regards

Hi,

I've been advised of permission for a day and night takeaway next door to my flat building and would like to object as I fear this may cause public safety issues with drunk people from the bars further down the street and make an already loud and congested roundabout/road even more disruptive. I also worry as a woman living alone for my safety, particularly with an influx in deliveroo drivers who do not often acknowledge road safety. As a recent home owner, I also do not want this to devalue my property.

My name is [REDACTED] and [REDACTED] live at [REDACTED], 6-10 [REDACTED] Road. I'm happy to discuss this further if required.

Thanks

Reasons for comment:	

Comments: 16/11/2025 3:13 PM Dear Sir/Madam,
I am writing to object to the application for a takeaway licence at this address.
My objections are based on the following concerns:
Noise and disturbance: Increased late-night activity, people gathering outside and vehicle movements will disturb residents, especially after 11pm.
Smells and ventilation: Cooking odours from the premises may affect nearby homes if extraction is not adequate.
Litter and waste: Takeaway packaging and food waste are likely to increase litter and attract pests in the surrounding streets.
Traffic and parking: Delivery drivers and customers may worsen parking problems and create unsafe traffic conditions.
For these reasons, I believe the application would negatively affect residential amenity and the local area.
Yours faithfully, [REDACTED]

Kind regards

Good Afternoon

I would like to lodge my objection to the Licence being applied for at the property, 794 Fulham Road, London SW6 5SL.

The Licence is for a Day & Night Takeaway at this address. My objections are:

1. This outlet will inevitably attract an increase in footfall in a dangerous location (the property is directly on a zebra crossing, with heavy use by local residents and located not far from a local school), so the illegal parking of cars and delivery mopeds will almost certainly occur and pose a hazard.
2. I understand the request is for a Licence with a proposed closing time of 02:00. The noise will directly impact residents in the area.
3. The increase in litter would affect the local environment – attracting rats, foxes, etc.

Hi Neil

Of course. It's:

Subject: Representation Regarding Licence Application 2025-01787-LAPR (794 Fulham Road)

You don't often get email from [REDACTED] [Learn why this is important](#)

Dear Licensing Team,

I am writing to submit a formal representation regarding the premises licence application for **794 Fulham Road, SW6 5SL** (Application Number **2025-01787-LAPR**).

After reviewing the proposal and considering the impact on the local area, I have several concerns relating to the statutory licensing objectives:

1. Prevention of Public Nuisance

The proposed closing time of 2:00am is likely to generate significant late-night noise and disturbance. Similar takeaway establishments often attract large groups of customers during the evening and early hours of the morning, some of whom may be intoxicated. This behaviour regularly leads to disruption for local residents.

I would also like to highlight that I have [REDACTED] and [REDACTED] directly opposite the proposed takeaway. Noise from customers gathering, talking loudly, or waiting outside late at night will significantly impact their ability to sleep, reducing their quality of life and likely leading to complaints and distress.

Additionally, food waste left outside may attract vermin, creating environmental hygiene concerns and further nuisance.

2. Impact on My Business

I also own and operate [REDACTED] which is directly opposite the proposed site. The increased noise, congestion, and potential disorder associated with a late-night takeaway operating until 2:00am will negatively affect my business environment. Customers may be discouraged from visiting my premises due to crowding, litter, or anti-social behaviour outside the new establishment. This could have a direct detrimental effect on my trade and the overall business atmosphere on this part of Fulham Road.

3. Public Safety

The entrance to the proposed premises sits very close to a zebra crossing frequently used by school children, families, and pedestrians. Increased foot traffic, delivery riders, and people waiting outside significantly heighten congestion and pose safety risks.

4. Prevention of Crime and Disorder

Late-night takeaways often experience anti-social behaviour, especially when customers have consumed alcohol elsewhere. The congregation of groups outside the premises may lead to arguments, disorder, or disturbances in the

area.

5. Protection of Children from Harm

With several schools located nearby, the increase in noise, litter, and late-night activity could negatively affect children and families in the neighbourhood.

For all of these reasons, I respectfully object to the granting of this licence, as the proposed takeaway would have a substantial negative impact on residents, local businesses, and the immediate surroundings.

Please confirm receipt of this representation. I am also willing to attend a hearing should one be arranged.

Kind regards,

London

OBJECTION TO LICENCE APPLICATION

Premises: Kooцина, 794 Fulham Road, London SW6 5SL

Your Name: [REDACTED]

Your Address: [REDACTED]

Date: 17/11/2025

Subject: Formal Representation Opposing Licence Application at "Kooцина" 794 Fulham Road SW6 5SL

Dear Licensing Team,

I am writing to submit a formal representation objecting to the licence application for 794 Fulham Road, SW6 5SL. I am a resident living at [REDACTED], and my home is extremely close ([REDACTED]) to the premises in question.

My objections relate directly to three of the Licensing Act 2003 objectives:

1. **Prevention of Public Nuisance**
2. **Public Safety**
3. **Prevention of Crime and Disorder**

1. Prevention of Public Nuisance

A. Late Operating Hours (Midnight on weekdays / 2am on weekends)

The application proposes takeaway operations until **midnight on weekdays** and **2am on weekends**. This is completely unsuitable for a residential building. The extended hours will generate significant noise and disturbance affecting not only the four or more working professionals in my building, but also the numerous residents in surrounding properties.

B. Noise from Delivery Drivers

As the business is predominantly takeaway-focused with limited seating, there will be a **constant flow of delivery drivers**, particularly during late evening and night hours.

This will result in:

- Repeated engine idling
- Phone notifications and shouting between drivers
- Lively gathering and coming/going at all hours

The entrance of the takeaway is directly under residential flats. Noise will inevitably travel upwards into bedrooms during times when residents reasonably expect quiet.

C. Noise and Pollution from Extractor Vent

A **large commercial extractor vent** has already been installed at the rear of the property. When operational, it emits a **loud and continuous noise**, which directly affects bedrooms and bathrooms facing the unit.

As mentioned in previous correspondence relating solely to the installation of this vent which we do not believe is in line with licensing regulations, granting this licence would formalise and increase this disturbance late into the night.

D. Visual and Environmental Impact of Rear Vent

As previously reported to the council:

- The rear ventilation unit is **visually intrusive**, metallic, and positioned directly in front of multiple habitable-room windows. It significantly impacts the character and amenity of the residential environment.
- The operational noise is loud and continuous, unsuitable for a residential area.
- Installation and associated works have frequently been carried out **late into the evening**, causing further disruption.

Evidence (photos and videos) has already been provided to the council highlighting these issues.

Together, these factors demonstrate a clear failure to meet the **public nuisance** objective.

2. Public Safety

A. Takeaway Entrance Adjacent to Zebra Crossing

The takeaway entrance is immediately next to a **zebra crossing** and very close to a **roundabout**. The presence of multiple delivery drivers waiting, parking, or stopping temporarily will:

- Obstruct visibility for pedestrians and drivers
- Cause traffic build-up around the roundabout
- Create a high risk of accidents
- Encourage illegal or unsafe stopping and manoeuvring

The location is simply not appropriate for a high-volume late-night takeaway operation.

B. Congestion and Access Issues

If delivery drivers or customers crowd the building frontage, this will obstruct pedestrian flow and pose safety risks for residents entering/exiting the building, especially at night.

These issues show the application does not adequately promote **public safety**.

3. Prevention of Crime and Disorder

Takeaways operating late at night often attract groups of people waiting, loitering or congregating outside. This can lead to:

- Anti-social behaviour
- Noise disturbances
- Intimidation for residents returning home
- Increased opportunities for theft or disorderly behaviour

The building entrance is immediately adjacent to where customers and drivers would gather, putting residents at increased risk. This location is not suitable for late-night food operations.

Conclusion

For the reasons above, the proposed takeaway at 794 Fulham Road **fails to meet multiple licensing objectives** and would cause significant and ongoing disruption to residents in the building and surrounding area.

I therefore respectfully request that the licence be **refused**.
I am willing to take part in mediation should the council consider it appropriate.

Kind regards,

Subject: Recent License application at 794 Fulham Rd, SW6 5SL

You don't often get email from [REDACTED] [Learn why this is important](#)

Dear Sirs,

I would like to lodge my objection to the Licence being applied for at the property, 794 Fulham Road, London SW6 5SL.

The Licence is for a Day & Night Takeaway at this address.

I strongly object to this licence application on the grounds given below.

This is a densely populated Family area with many young children

- The proposed takeaway establishment will inevitably attract an increase in footfall in a dangerous location (the property is directly on a zebra crossing, with heavy use by local residents and located not far from a local school).
- In addition the increased delivery vehicles will cause a considerable danger in the immediate area as this is a very busy and congested road. I consider it would be a serious hazard.
- I understand the request is for a Licence with a proposed closing time of 02:00. The noise will negatively directly impact residents in the area.
- The increase in litter would affect the local environment – attracting rats, foxes, etc.

This establishment will greatly effect the area in a very negative way.

Please do not grant this license.

With kind regards,

[REDACTED]

Dear Licensing Team,

I am writing to register my strongest objection to the proposed granting of a licence for a fried chicken takeaway at 794 Fulham Road, London SW6 5SL. This location is wholly unsuitable for such a business, and the proposal raises significant concerns regarding public safety, health, environmental impact, noise, antisocial behaviour, and the protection of the area's historic and residential character.

The proposed site sits opposite a zebra crossing used heavily by schoolchildren, parents, elderly residents, and other pedestrians. It is also near a mini-roundabout, creating an already complex and busy traffic environment. The addition of delivery bikes, waiting customers, and people gathering outside the premises would create dangerous congestion and severely compromise visibility for those attempting to cross. This represents a serious and unacceptable risk to public safety, particularly during school hours and peak travel times, when the likelihood of accidents or near-misses would be greatly increased.

The surrounding area includes a listed building, a conservation area, and a historic park and garden. Any new commercial activity should therefore respect and enhance the heritage significance and residential nature of this stretch of Fulham Road. A late-night fried chicken takeaway is entirely incompatible with this context. The existing local businesses — including small independent shops, galleries, hairdressers, and bridal boutiques — rely on a peaceful, attractive environment for their customers. Introducing a fast-food outlet would fundamentally alter the area's character, encouraging noise, late-night gatherings, and antisocial behaviour.

Noise disturbance is a further serious concern. Delivery riders arriving and idling outside, groups congregating on the pavement, and general late-night activity would create sustained disruption for nearby residents and businesses well beyond normal trading hours. This erosion of residential amenity is unjustifiable.

The proposal also raises pressing questions about waste management. The rear of the property has been completely built over, leaving no secure or appropriate space for refuse storage or safe handling of used cooking oil. Takeaway food inevitably produces

large quantities of disposable packaging, which will contribute to litter on Fulham Road. This not only diminishes the appearance of the street but attracts rats, foxes, pigeons, and other vermin, posing an avoidable public health risk.

Finally, the health impact on local children must not be overlooked. The premises are located in close proximity to a primary school. The easy availability and increased promotion of high-fat, high-salt fast food in this location encourages unhealthy eating habits among children and young people, contrary to the Council's public health objectives.

For all of the above reasons — safety risks, heritage concerns, noise and disturbance, waste and hygiene issues, and the impact on children's health — I urge the Council to refuse this licence application.

Thank you for your attention to this matter.

Yours faithfully,

[REDACTED]

[You don't often get email from [REDACTED]. Learn why this is important at <https://aka.ms/LearnAboutSenderIdentification>]

I have recently been made aware of a licensing application for no 794 Fulham Road and I would like to lodge an objection to a licence being granted.

To confirm, I live [REDACTED] to the premises.

My grounds for objection are as follows

- 1) The noise this premises will generate - particularly if they are allowed to stay open until 2am... how ridiculous - even local bars and pubs are not allowed to stay open that late.
- 2) The additional litter and mess a premises like this will generate. The council struggle at the best of time to even sweep up leaves, so how on earth will it cope with one late licence venue which will undoubtedly have a drunk clientele dropping their rubbish and food in the vicinity?
- 3) Given the 2am licence application this venue will no doubt generate antisocial behaviour which we as residents do not want. Plus I don't want late night mopeds whizzing to and from the venue picking up orders and making a racket in the early hours.

Taking all of the above into consideration I would kindly request that the licence is not granted.

Dear Sir

RE: Application Number 2025-01787-LAPR

I have lived in [REDACTED], since 1989 and have seen many problems and their solutions, in dealing with all of which the Council and Police have been very effective. It is now a quiet, safe residential street with little traffic and little obvious crime. This has not always been the case. Notably, the alleyway on the right immediately before you reach the Fulham Road used to be both a fly-tipping hot spot and a meeting ground/hanging around spot for undesirables of various sorts, including we believe, minor drug dealing. They used to hang around the entrance to that passage and make it feel very uncomfortable to walk past, even in daylight. Burlington Road also used to be a continuously noisy and potentially dangerous rat run and almost impossible for residents to find parking in.

Over the years various LBHF councils have eradicated these problems, for which we are very grateful.

This is now under threat. The lengthy opening and late night/early morning hours of a food takeaway outlet is almost bound to result in the health hazard and nuisance of food litter and other types of litter and smells.

There is also the likelihood of noise and possibly anti-social behaviour from customers waiting for their orders to be filled, maybe even petty crime, particularly in the evening, spilling over from the Fulham Road, which we all use, into Burlington Road. This is particularly likely given the proximity of the zebra crossing.

It will make it quite daunting for single travellers, especially women and old people, returning late along that part of the Fulham Road.

Given that there is already a bus stop close by, customers waiting for, or eating, their orders is likely to further increase pedestrian congestion on that part of the pavement.

There is also the position of the children's school, whose collection gate is on Burlington Road, to consider. I believe the school premises fall within the Mayor's 400 metre exclusion zone for take-aways.

Then there is the question of customer's motor vehicles and those of motorbike couriers, if they intend to use them. Where will they park, wait, and return while fulfilling orders? Burlington

Road is already narrow at that end, with no pavement to speak of on the lefthand side at the back of the Fulham Highstreet flats which open on to it.

In short, I believe the proposed application poses a threat to those who live in, or have reason to be in, the neighbourhood, from petty crime, anti-social behaviour, noise, smells, traffic congestion and their safety.

For the reasons given above I object to the granting of this application.

Objection to Premises Licence Application – Day & Night Takeaway

To: Licensing Authority

Subject: Representation Against Premises Licence Application for Day & Night Takeaway

Grounds: Prevention of Crime and Disorder; Prevention of Public Nuisance

Dear Licensing Committee,

I am writing to formally object to the application for a premises licence for **takeaway restaurant with seating for 8 people**, located in a residential area. My objection is based on the following licensing objectives:

1. Prevention of Crime and Disorder

The proposed late-night operation increases the risk of anti-social behaviour in our neighbourhood. We have already observed groups congregating near similar establishments in Fulham Broadway, leading to disturbances, arguments, and occasional vandalism. Extending hours will likely exacerbate these issues.

2. Prevention of Public Nuisance

- **Noise:** The Shell station (923-931 Fulham Road) closes premises at 11:00 PM and already causes significant disruption. Customers frequently arrive with loud music (towards 10pm). This is particularly distressing for families with young children, including ours.
 - **Early Morning Disturbance:** We also have experienced machinery noise and vehicle movements as early as 7:00 AM on weekends, which is unacceptable in a residential setting.
 - **Litter and Smells:** Takeaway packaging and food waste are often discarded on pavements, attracting pests and creating unpleasant smells. This degrades the quality of life for residents and poses hygiene concerns.
-

Impact on Children

We have two small children whose sleep and wellbeing are negatively affected by the late-night noise and early morning disturbances. This environment is not conducive to family life and contradicts the objective of protecting children from harm.

In summary, granting this licence would undermine the licensing objectives and worsen existing problems of noise, litter, anti-social behaviour, and public nuisance in our residential area. I respectfully request that the application be refused or, at minimum, that strict conditions be imposed to limit operating hours and mitigate these issues.

Yours sincerely,

To: Gardiner Neil: H&F <Neil.Gardiner@lbhf.gov.uk>
Subject: 794 Fulham Road

Dear Mr Gardiner

May I apologise most sincerely for sending to you a 'blank' message and not indicating exactly what it was all about. The message below is my response to the email sent to you from rizQ Architecture&ConstructionLTD of Birmingham. They sought to clarify how Koocina will operate. Just in case you have not noticed I am not in favour of a fast food outlet in that particular location and I'm amazed that anybody would even consider doing so. The licence application is to change a 'shop' into a fast food takeaway isn't what I would consider a safe or sensible option. A shop does not require the footfall of a takeaway business especially when the shop door is opposite a pedestrian crossing.

To give you an idea of who you are dealing with the person who appears to be in charge asked the occupants above the shop to pay him to install a high level extraction system and when they said no the low level system was installed. So they do know what should be done in that respect.

1

According to the recent document sent to you from koocina it says that the local pubs and takeaways supply most of the areas takeaway service demands. This raises the question what is the reason for the proposed takeaway's establishment in this position?

Concise, Positive, Factual. Similar closing times?

Fulham House		The latest time that the kitchen will close is at	9.30pm
La Pizzica	11pm	"	"

Both restaurants are on a corner and are primarily dine in. When delivery riders are called their bikes are parked in the side street which do not obstruct the pavement.

Where will koocina's bike be parked and charged?

The main differences between Fireaway's and the proposed takeaway is that outside Fireaway's they have a pavement some 4m80 from the door to the **railings**. This is a reasonable space for customer and other members of the public to pass without the risk of stepping into the road.

While the proposed takeaway has 2m34 between the door and the **pedestrian crossing** with a choke point of 1m40 created by the street lighting post. This creates a significant risk to public safety during congestion.

2

It is positive that deliveries will be collected inside the premises only, **was there another option?**, Additionally, riders and waiting customers will **all wait inside** the premises waiting for their orders without making any noise and refrain from smoking?.

However, the management will not be able to exercise this level of control over their customers having left the pub or indeed the delivery drivers.

3

There will be no eat in service in the evening and at night but riders waiting for their order are now told to **avoid** waiting outside and **customers will not gather?**

Kebab Kid local has now closed down but only after upsetting numerous local residents with the smell of cooking from the low level extraction system and the noise.

4

To say that the two previous occupant's at 794_Fulham Road operated deliveries I think is a massive overstatement as both of them operated extremely short opening times and had a very limited choice of food. Its no wonder that there were no complaints.

5

Despite the fact that the government and mayor's statement that **no new** fast food takeaways should open within 400m of schools so as to minimise the alarming rise in obesity in our schools. The fact that there are **several** schools within this prescribed radius might have been a consideration for opening in this site?

If this takeaway was really interested in a delivery operation why did it not open in an industrial estate which would not upset local residents with the smells, noise and antisocial behaviour normally associated with such venues.

To whom it may concern, I wish to express my deepest concern about the opening of another takeaway on Fulham Road.

We have so many and I am worried about where the takeaway drivers will park.

It's a very busy junction. I assume they will park on Burlington Road where I park my car. This scares me . It a quiet street that constantly has fly tipping.

I'm concerned about noise , rubbish etc.

I just think it will be a blight on the area.

Sincerely
