

APPENDIX 1

Recommendation and Action Tracking

The monitoring of progress with the acceptance and implementation of recommendations enables the Committee to ensure that desired actions are carried out and to assess the impact of its work on policy development and service provision. Where necessary it also provides an opportunity to recall items where a recommendation has been accepted but the Committee is not satisfied with the speed or manner of implementation, thus enhancing accountability. It also enables the number of formal update reports submitted to the Committee to be kept to a minimum, thereby freeing up Members time for other reviews.

The schedule below sets out progress in respect of those substantive recommendations and actions arising from the Housing, Health & Adult Social Care Select Committee
