
SPECIAL MOTION NO. 2 – WHITE CITY NEIGHBOURHOOD COMMUNITY BUDGET

Standing in the names of:

- (i) Councillor Marcus Ginn
- (ii) Councillor Andrew Johnson

“This Council:

1. Believes that Hammersmith and Fulham should be a borough of opportunity for all residents including those in the White City area.
2. Believes that:
 - A greater sense of community and responsibility will produce lasting benefits for all residents in the White City area.
 - Local people who are empowered to help make decisions will make better life choices and lead happier lives.
 - Residents and their children should be skilled, educated and able to take advantage of the many employment opportunities on their doorstep.
 - Local patients and their carers should be able to take greater control of their own health and wellbeing.
3. Supports the White City neighbourhood community budget pilot project and the more imaginative use of public money that will deliver the above objectives.
4. Regrets that the opposition has chosen not to support the residents of White City by withdrawing from the White City neighbourhood community budget pilot project.”
