

Equality Impact Analysis Initial Screening Tool with Guidance

Overview

This Tool has been produced to help you analyse the likelihood of impacts on the protected characteristics – including where people are represented in more than one – with regard to your new or proposed policy, strategy, function, project or activity. It has been updated to reflect the new public sector equality duty and should be used for decisions from 5th April 2011 onwards. It is designed to help you determine whether you may need to do a Full EIA. If you already know that your decision is likely to be of high relevance to equality, and/or be of high public interest, you should contact the Opportunities Manager, as s/he may recommend moving directly to a Full EIA.

General points

1. 'Due regard' means the regard that is appropriate in all the circumstances. In the case of controversial matters such as service closures or reductions, considerable thought will need to be given the equalities aspects.
2. Wherever appropriate, and in all cases likely to be controversial, the outcome of the EIA needs to be summarised in the Cabinet/Cabinet Member report and equalities issues dealt with and cross referenced as appropriate within the report.
3. Equalities duties are fertile ground for litigation and a failure to deal with them properly can result in considerable delay, expense and reputational damage.
4. Where dealing with obvious equalities issues e.g. changing services to disabled people/children, take care not to lose sight of other less obvious issues for other protected groups.

Timing, and sources of help

Case law has established that having due regard means analysing the impact, and using this to inform decisions, thus demonstrating a conscious approach and state of mind ([2008] EWHC 3158 (Admin), [here](#)). It has also established that due regard cannot be demonstrated after the decision has been taken. Your EIA should be considered at the outset and throughout the development of your proposal, through to the recommendation for decision. It should demonstrably inform, and be made available when the decision that is recommended. This tool contains guidance, and you can also access guidance from the EHRC [here](#). If you are analysing the impact of a budgetary decision, you can find EHRC guidance [here](#). Advice and guidance can be accessed from the Opportunities Manager: PEIA@lbhf.gov.uk or ext 3430.

Initial Screening Equality Impact Analysis Guidance

Section 01	Details of Initial Equalities Impact Screening Analysis
Name of policy, strategy, function, project, activity, or programme	<p>A Policy refers to an approved decision, principle plan or a set of procedures by Cabinet, or a Cabinet Member under delegated powers that affects the way that the Council conducts its business both internally and externally. A policy can include: strategies, guides, manuals and common practice.</p> <p>A Strategy refers to a systematic short term or a long term plan of action that is designed to achieve a specific business benefit or goal(s).</p> <p>A Function refers to any actions and/or activities designed to achieve a specific business benefit or goal.</p> <p>A Project defines how a temporary structure or scheme can achieve a specific business benefit or goal(s). A project can be implemented by setting up aims and objectives, resources, communication, budget needs and timelines.</p> <p>An Activity is a specific task (or a groups of tasks) which can also form as part of a 'function'.</p> <p>A Programme is a portfolio of activities and projects that are co-ordinated and managed as a unit such that they realise common outcomes and benefits.</p>
Q1 What are you looking to achieve?	For example this might help to implement outcomes identified in policies such as the Single Equality Scheme , Disability Equality Scheme , other EIAs in your service department, or in another department that your service/service users also interact with and draw down services from, Corporate Plan , LAA Targets , CAA Aims, UDP , or JSNA .

<p>Q2 Who in the main will benefit?</p>	<p>Hereafter, 'policy' means policy, strategy, function, project, activity, or programme</p> <p>Disability Service providers also have an anticipatory duty to make reasonable adjustments for disabled people. These two duties frequently overlap and it is sensible to consider them together. For example, can you:</p> <ul style="list-style-type: none"> ▪ Provide accessible communications? ▪ Change how you collate and use data? ▪ Revise how you involve service users? <p>Analyse the impact of the policy on the protected characteristics with due regard to the Public Sector Equality Duty.</p> <p>Use your reasoning in order to determine whether the policy will be of high, medium or low relevance to the protected characteristics. What do we mean by these terms?:</p> <p>High</p> <ul style="list-style-type: none"> ▪ The policy, strategy, function, project, activity, or programme is relevant to all or most parts of the general duty, and/or to human rights ▪ There is substantial or a fair amount of evidence that some groups are (or could be) differently affected by it ▪ There is substantial or a fair amount of public concern about it <p>Medium</p> <ul style="list-style-type: none"> ▪ The policy, strategy, function, project, activity, or programme is relevant to most parts of the general duty, and/or to human rights ▪ There is some evidence that some groups are (or could be) differently affected by it ▪ There is some public concern about it <p>Low</p> <ul style="list-style-type: none"> ▪ The policy, strategy, function, project, activity, or programme is not generally relevant to most parts of the general duty, and/or to human rights ▪ There is little evidence that some groups are (or could be) differently affected by it ▪ There is little public concern about it <p>Use your reasoning to determine whether the impact will be positive, neutral, or negative. There are three</p>

possible outcomes:

- **Positive:** The EIA shows the policy is not likely to result in adverse impact for any protected characteristic and does advance equality of opportunity, and/or fulfils PSED in another way
- **Neutral:** The EIA shows the policy, strategy, function, project or activity is not likely to result in adverse impact for any protected characteristic and does not advance equality of opportunity, and/or fulfils PSED in another way
- **Negative:** The EIA shows the policy, strategy, function, project or activity is likely to have an adverse impact on a particular protected characteristic(s) and potentially does not fulfil PSED, or the negative impact will be mitigated through another means.

Should your policy not be applicable, you must note this and state why.

Human Rights, Children's Rights

Additionally, demonstrate here that the impact on **Human and/or Children's Rights** arising from the policy has been considered.

Does the policy, strategy, function, project, activity, or programme actually or potentially contribute to or hinder equality of opportunity and/or human rights?	If the answer here is 'yes', then it is necessary to go ahead with a Full Equality Impact Analysis. You should also consider a Full Equality Impact Analysis if your decision is likely to be of high relevance to equality, and/or be of high public interest.
