WALDEMAR AVENUE	Munster	Steel
WALDO ROAD	College Park and Old Oak	Steel
WESTVILLE ROAD	Askew	Steel

Based on column age we expect that the street lights on the roads below will need to be replaced within the next 5 years.

The replacement programme for each year will be finalised once we have received the results of structural testing that is undertaken. The structural testing will tell us what the remaining life of the street lights is and therefore how soon they need to be replaced.
